Check number 243, in the amount of $73.21, was drawn on the Resistance account, payable to cash by ROBERT ZAUGH, leaving a balance as of June 16, 1969, of $.88. ALLEN advised that the $.88 balance would be consumed by bank service charges and in all probability, the account would be closed as of July 17, 1969.

ALLEN advised that if no further action transpires on the Resistance account, he will notify the FBI the date the account was closed.

ACTIVITIES

LA T-5 (1/14/70)

Since May of 1969, activity on the part of the Resistance has been limited within the Los Angeles area with draft counseling at vaious locations throughout Los Angeles being the dominant activity. Source advised there are many draft counseling organizations operating within the Los Angeles area with whom the Resistance has no association.

LA T-6 (4/24/69)

On April 16, 1969, University of California at Los Angeles, California (UCLA) Chancellor CHARLES E. YOUNG held a public meeting at Royce Hall on the UCLA campus to answer the demands previously presented by the UCLA Coalition (See appendix) of which the Resistance is a part.

The demands presented were that the administration guarantee that no disciplinary action be taken against a particular member of the Students for a Democratic Society (SDS) (See appendix), who allegedly violated campus regulations by using sound equipment at a SDS rally; that the Chancellor publicly state that the Los Angeles Police Department is not welcome on the campus; that the University halt its racist activities; and that the University halt all war related activities, which would include the abolishment of the Reserve Officers Training Corps (ROTC).

Nothing was resolved at the meeting, which was attended by approximately 1,500 people of which approximately 200 staged a peaceful protest walk through the administration building following the meeting.

LA T-6 (10/21/69)

On October 21, 1969, approximately 100 persons gathered in front of the Armed Forces Examing and Entrance Station (AFEES), 1033 South Broadway, Los Angeles, California, to picket and protest the induction of RALPH ALVY, a UCLA student and allegedly a member of the Resistance on that campus. The demonstration was sponsored by the Los Angeles Resistance and members of the group consisted mostly of teenagers, both male and female. On October 21, 1969, ALVY would supposedly refuse induction into the military. Some of the participants staged a sit-down protest and blocked the entrance to the AFEES, which resulted in the arrest of 15 persons, 8 female and 7 males with one male classified as a juvenile. ALVY was one of those arrested.

LA T-6 (11/6/69)

On November 4, 1969, 18 people under the sponsorship of the Resistance instituted a peaceful picket at AFEES, 1033 South Broadway, Los Angeles, California, where it was alleged that one MARK MIUCCILO, a member of the Los Angeles Resistance, would refuse induction. Source advised that DENNIS L. RUBENSTEIN, LAURA PEARCE, GORDON BAXTER and RALPH ALVY were present at that demonstration, each of whom was arrested at the above mentioned demonstration on October 21, 1969 at AFEES.

On January 14, 1970, Special Agents of the FBI observed a demonstration at AFEES, 1033 South Broadway, Los Angeles, California. This demonstration was under the sponsorship of various organizations, which included the Vietnam Moratorium Committee and the Women Strike for Peace (See appendix). The Resistance and SDS were also included at this demonstration. The purpose of this demonstration, which was participated in by a maximum of 150 persons was to show opposition to the Selective Service System.

At various times between 6:00 a.m. and 9:00 a.m. individuals attempted to block the doorway of AFEES, in an attempt to prevent the inductees from entering. This action resulted in the arrest of 19 persons by the Los Angeles Police Department charging them with violation of the Los Angeles Municipal Code involving Blocking an Entrance to a Public Building.

Of the participants, 95 per cent were "hippie type" individuals. Among the adult participants, the following were present:

IRVING SARNOFF
HELEN TRAVIS
BETTY ROTTGER

LA T-6 on January 14, 1970, advised that SARNOFF, TRAVIS and ROTTGER were current or past members of the Communist Party (CP). SARNOFF is currently chairman of the Peace Action Council (See appendix).

It is to be noted that PIKE, KING, PEARCE, MAYNES and PEARCEFUL were arrested at a similiar type demonstration on October 21, 1969 (Supra)

ROBERT LEE PIKE

PIKE was arrested by Special Agents of the FBI without incident on January 13, 1970, at 443 South Virgil Street, Los Angeles, California. The arrest was based on an indictment returned by the Federal Grand Jury, December 19, 1969, at Los Angeles, California, which charged him with violation of the Selective Service Act in that he failed to report for a physical examination at Los Angeles on December 4, 1968, and refused to submit to induction on March 25, 1969. Appearing before the U. S. Commissioner on January 13, 1970, he was released on his own recognizance.

RICHARD MONTGOMERY SERVICE

The 1969-1970 Student Directory for the Claremont Colleges lists RICHARD MONTGOMERY SERVICE as a senior student enrolled in Pomona College. FBI files in Los Angeles, California, revealed that RICHARD MONTGOMERY SERVICE, SR. in 1965 completed standard form 86, on which he listed his employment at that time as being the U. S. Department of State. This form contained the listing of the names of his relatives, one of whom is his son, RICHARD MONTGOMERY SERVICE, born in 1947.

LA T-7 advised on January 20, 1970, that RICHARD MONTGOMERY SERVICE, SR. as of 1969 is a consular officer, an employee of the U. S. Department of State stationed in Melborne, Australia.

KELLY KING, MARGARET FARRELL, ROSA LUCAS

LA T-6 on January 20, 1970, advised that the above metioned persons have been involved in anti-war and anti-draft activities in the Los Angeles area, but are not known to belong to any subversive groups or organizations.

LITERATURE

On May 8, 1969, Detective JACK GUSTAFSON, UCLA Police Department, provided the following leaflet being distributed by members of the Resistance on the UCLA campus in front of the Air Force ROTC offices on that date.

COLONEL CHANGES MIN[illegible]

Penalty for Battle Casualties Dropped

DAU TIENG, Vietnam (AP)—A portion of a competitive program involving the deduction of "points" from units losing men in combat has been dropped by the U.S. battalion commander who originated it, the officer said Sunday.

But Lt. Col. James T. Bradley strongly defended his project and said he had started the program to prevent needless casualties among his men, some of whom "just weren't being alert."

Men in Opposition

The 40-year-old Korean War veteran said he dropped the point deduction aspect of his program after learning his men were opposed to it.

Three weeks ago, Bradley started a competition in which the winning rifle platoon would get three duty-free days in a rest center and the winning weapons platoon two days.

Under the program, points were awarded to platoons for enemy-troops killed, weapons captured and rice caches discovered. Points were deducted from platoons suffering battle casualties.

The last part of the program touched off an angry letter from one of Bradley's infantrymen.

"The morale is low enough without a stupid contest that only shows us what little is thought of what we're already doing . . ." he wrote home. "We don't need to be playing games in a combat zone . . . This contest has shown us what pawns we are.

Loss of Points

"I wouldn't like to think that because one of my buddies gets killed it only means we lose points."

Bradley, who for three months has commanded the 25th Infantry Divisions 1st Battalion, 27th Infantry, said those who felt that way missed what he wanted to emphasize—stay alert and live.

His battalion operates—mainly in platoon-size actions around the enemy-infested Bo Loi Wo[illegible] and the Michelin rubber plantation northwest of Saigon.

His operations officer, Maj. Jerry Holliday, Memphis, Tenn., said one company's mishaps with enemy booby traps was the sole reason a decision was made to deduct points for U.S. casualties in the platoon competition program.

This company, he said, "was stumbling over booby traps on a daily basis. They suffered something like nine casualties in two or three days. It was pure carelessness.

Needless Mistakes

"The program was almost specifically designed to prevent that, to make the platoon leader, the platoon sergeant, the squad leader make their men be more careful," Holliday said. "The whole name of the game was to keep the men from making needless mistakes."

Bradley, known to his men as "bushmaster" because of his expertise in setting ambushes for enemy troops, was asked if he felt combat troops get careless, despite constant danger.

"Yes, I think so," he replied. "They become somewhat complacent after being in Vietnam for a while. They get exposed to combat, survive without injury and become a little bit more careless."

Another constant problem, said Bradley, who is from Arlington, Va., is getting soldiers to seek "proper shelter" when in a fight or when one is brewing.

At night, one of the biggest problems at the fire support base he commands is a strange one. The men don't like to sleep in their sandbagged bunkers because of the heat and mosquitoes there, he said.

"We're subjected to indirect fire (rocket and mortar) attacks all the time," and yet, he added, some of his soldiers try to sleep atop the bunkers in the open and have to be ordered down.

This is a good example of "humane" and well rounded U.S. army officers leading our boys in combat. Our campus is presently training men to be as equally qualified as these officers, to be used wherever the "commies" might be(Southeast Asia, Latin America, or North America). Is this University going to continue in allowing training and recruitmentffor the army? We students have the power to say no and must do so. We can't compromise with such a brutal institution as the American military. Join in the struggle-attend the rallies and use your life as a tool for something constructive.

"To conclude:all I ask is that, in the midst of a murderous world, we agree to reflect on murder and to make a choice. After that, we can distinguish those who accept the consequences of being murders themselves or the accomplices of murderers, and those who refuse to do so with all their force and being." -Albert Camus

On May 29, 1969, GASTAFSON provided the following pamphlet captioned "Channeling" which was distributed by Resistance members on the UCLA campus:

"Channeling" is one of ten documents in an "Orientation Kit" put out by the Selective Service. It was issued in July 1965 and has recently been withdrawn. The following are excerpts from that document.

One of the major products of the Selective Service classification process is the channeling of manpower into many endeavors, occupations and activities that are in the national interest. . . .

The line dividing the primary function of armed forces manpower procurement from the process of channeling manpower into civilian support is often finely drawn. The process of channeling by not taking men from certain activities who are otherwise liable for service, or by giving deferment to qualified men in certain occupations, is actual procurement by inducement of manpower for civilian activities which are manifestly in the national interest.

While the best known purpose of Selective Service is to procure manpower for the armed forces, a variety of related processes take place outside delivery of manpower to the active armed forces. Many of these may be put under the heading of "channeling manpower." Many young men would not have pursued a higher education if there had not been a program of student deferment. Many young scientists, engineers, tool and die makers, and other possessors of scarce skills would not remain in their jobs in the defense effort if it were not for a program of occupational deferments. Even though the salary of a teacher has historically been meager, many young men remain in that job, seeking the reward of a deferment. The process of channeling manpower by deferment is entitled to much credit for the large number of graduate students in technical fields and for the fact that there is not a greater shortage of teachers, engineers and other scientists working in activities which are essential to the national interest. . . .

The System has also induced needed people to remain in these professions and in industry engaged in defense activities or in the support of national health, safety or interest. . . .

This was coupled with a growing public recognition that the complexities of future wars would diminish further the distinction between what constitutes military service in uniform and a comparable contribution to the national interest out of uniform. Wars have always been conducted in various ways, but appreciation of this fact and its relationship to preparation for war has never been so sharp in the public mind as it is now becoming. The meaning of the word "service," with its former restricted application to the armed forces, is certain to become widened much more in the future. This brings with it the ever increasing problem of how to control effectively the service of individuals who are not in the armed forces.

In the Selective Service System the term "deferment" has been used millions of times to describe the method and means used to attract to the kind of service considered to be most important, the individuals who were not compelled to do it. The club of induction has been used to drive out of areas considered to be less important to the areas of greater importance in which deferments were given, the individuals who did not or could not participate in activities which were considered essential to the defense of the Nation. The Selective Service System anticipates further evolution in this area. . . .

No group deferments are permitted. Deferments are granted, however, in a realistic atmosphere so that the fullest effect of channeling will be felt, rather than be terminated by military service at too early a time.

Registrants and their employers are encouraged and required to make available to the classifying authorities detailed evidence as to the occupations and activities in which the registrants are engaged. . . . Since occupational deferments are granted for no more than one year at a time, a process of periodically receiving current information and repeated review assures that every deferred registrant continues to contribute to the overall national good. This reminds him of the basis for his deferment. . . .

Patriotism is defined as "devotion to the welfare of one's country." It has been interpreted to mean many different things. Men have always been exhorted to do their duty. But what that duty is depends upon a variety of variables, most important being the nature of the threat to national welfare and the capacity and opportunity of the individual. Take, for example, the boy who saved the Netherlands by plugging the dike with his finger.

At the time of the American Revolution the patriot was the so-called "embattled farmer" who joined General Washington to fight the British. The concept that patriotism is best exemplified by service in uniform has always been under some degree of challenge, but never to the extent that it is today. In today's complicated warfare, when the man in uniform may be suffering far less than the civilians at home, patriotism must be interpreted far more broadly than ever before.

This is not a new thought, but it has had new emphasis since the development of nuclear and rocket warfare. Educators, scientists, engineers and their professional organizations, during the last ten years particularly, have been convincing the American public that for the mentally qualified man there is a special order of patriotism other than service in uniform—that for the man having the capacity, dedicated service as a civilian in such fields as engineering, the sciences and teaching constitute the ultimate in their expression of patriotism. A large segment of the American public has been convinced that this is true.

It is in this atmosphere that the young man registers at age 18 and pressure begins to force his choice. He does not have the inhibitions that a philosophy of universal service in uniform would engender. The door is open for him as a student if capable in a skill badly needed by his nation. He has many choices and he is prodded to make a decision.

The psychological effect of this circumstantial climate depends upon the individual, his sense of good citizenship, his love of country and its way of life. He can obtain a sense of well-being and satisfaction that he is doing as a civilian what will help his country most. This process encourages him to put forth his best effort and removes to some degree the stigma that has been attached to being out of uniform.

In the less patriotic and more selfish individual it engenders a sense of fear, uncertainty and dissatisfaction which motivates him, nevertheless, in the same direction. He complains of the uncertainty which he must endure; he would like to be able to do as he pleases; he would appreciate a certain future with no prospect of military service or civilian contribution, but he complies. . . .

Throughout his career as a student, the pressure—the threat of loss of deferment—continues. It continues with equal intensity after graduation. His local board requires periodic reports to find out what he is up to. He is impelled to pursue his skill rather than embark upon some less important enterprise and is encouraged to apply his skill in an essential activity in the national interest. The loss of deferred status is the consequence for the individual who has acquired the skill and either does not use it or uses it in a nonessential activity.

The psychology of granting wide choice under pressure to take action is the American or indirect way of achieving what is done by direction in foreign countries where choice is not permitted. Here, choice is limited but not denied, and it is fundamental that an individual generally applies himself better to something he has decided to do rather than something he has been told to do.

The effects of channeling are manifested among student physicians. They are deferred to complete their education through school and internship. This permits them to serve in the armed forces in their skills rather than in an unskilled capacity as enlisted men.

The device of pressurized guidance, or channeling, is employed on Standby Reservists of which more than 2-1/2 million have been referred by all services for availability determinations. The appeal to the Reservist who knows he is subject to recall to active duty unless he is determined to be unavailable is virtually identical to that extended to other registrants.

The psychological impact of being rejected for service in uniform is severe. The earlier this occurs in a young man's life, the sooner the beneficial effects of pressured motivation by the Selective Service System are lost. He is labeled unwanted. His patriotism is not desired. Once the label of "rejectee" is upon him all efforts at guidance by persuasion are futile. If he attempts to enlist at 17 or 18 and is rejected, then he receives virtually none of the impulsion the System is capable of giving him. If he makes no effort to enlist and as a result is not rejected until delivered for examination by the Selective Service System at about age 23, he has felt some of the pressure but thereafter is a free agent.

This contributed to establishment of a new classification of I-Y (registrant qualified for military service only in time of war or national emergency). That classification reminds the registrant of his ultimate qualification to serve and preserves some of the benefit of what we call channeling. Without it or any other similar method of categorizing men in degrees of acceptability, men rejected for military service would be left with the understanding that they are unfit to defend their country, even in wartime.

An unprejudiced choice between alternative routes in civilian skills can be offered only by an agency which is not a user of manpower and is, therefore, not a competitor. In the absence of such an agency, bright young men would be importuned with bounties and pirated like potential college football players until eventually a system of arbitration would have to be established.

From the individual's viewpoint, he is standing in a room which has been made uncomfortably warm. Several doors are open, but they all lead to various forms of recognized, patriotic service to the Nation. Some accept the alternatives gladly—some with reluctance. The consequence is approximately the same.

The so-called Doctor Draft was set up during the Korean episode to insure sufficient physicians, dentists and veterinarians in the armed forces as officers. The objective of that law was to exert sufficient pressure to furnish an incentive for application for commission. However, the indirect effect was to induce many physicians, dentists and veterinarians to specialize in areas of medical personnel shortages and to seek outlets for their skills in areas of greatest demand and national need rather than of greatest financial return.

Selective Service processes do not compel people by edict as in foreign systems to enter pursuits having to do with essentiality and progress. They go because they know that by going they will be deferred.

The application of direct methods to effect the policy of every man doing his duty in support of national interest involves considerably more capacity than the current use of indirection as a method of allocation of personnel. The problem, however, of what is every man's duty when each individual case is approached is not simple. The question of whether he can do one duty better than another is a problem of considerable proportions and the complications of logistics in attempting to control parts of an operation without controlling all of it (in other words, to control allocation of personnel without controlling where people eat, where they live and how they are to be transported), adds to the administrative difficulties of direct administration. The organization necessary to make the decisions, even poor decisions, would, of necessity, extract a large segment of population from productive work. If the members of the organization are conceived to be reasonably qualified to exercise judgment and control over skilled personnel, the impact of their withdrawal from war production work would be severe. The number of decisions would extend into billions.

Deciding what people should do, rather than letting them do something of national importance of their own choosing, introduces many problems that are at least partially avoided when indirect methods, the kind currently invoked by the Selective Service System, are used.

Delivery of manpower for induction, the process of providing a few thousand men with transportation to a reception center, is not much of an administrative or financial challenge. It is in dealing with the other millions of registrants that the System is heavily occupied, developing more effective human beings in the national interest. If there is to be any survival after disaster, it will take people, and not machines, to restore the Nation. July, 1965

It is to be noted that the Resistance address as indicated on the pamphlet as 2819 West Francis, Los Angeles, no longer pertains to the Resistance. The address listed as 11317 Santa Monica Boulevard (S.M. Bl.) Santa Monica, California, through prior investigation by Special Agents of the Los Angeles Division was found to be "Papabachs" bookstore where draft counseling takes place two nights a week.

LA T-8 On January 13, 1970, advised that the name JUSTINE BROWN as listed on the memo is that of JUSTINE GAIL BROWN, a white female, who is a student at Los Angeles Valley Junior College, Van Nuys, California.

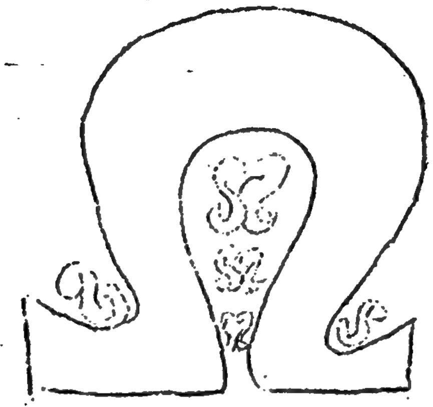
The address of 724 North Marengo, Pasadena, California, is that of an edifice which exists under the name, the "Peace House" This establishment according to LA T-1 is a sanctuary for AWOLs' and deserters, and is a commune type living quarters for those involved in the peace movement.

The "Peace House" was started by CHARLES ARTHUR FRIEND, JR., WALTER SKINNER and ROBERT SIEGEL. The above named three individuals on May 20, 1969, destroyed Selective Service records at the Los Angeles AFEES Headquarters where they passed out copies of a leaflet entitled, "Resistance Newsletter", in which they stated they were destroying induction center records "to carry on violent resistance to the Government".

Records of the U. S. District Court, Los Angeles, California, revealed that all three were convicted of Destruction of Government Property on July 31, 1969, and on August 7, 1969, they were sentenced to three years each in prison.

On June 3, 1969, JOHN NAVEAU, a former Police Officer of the UCLA Police Department provided a leaflet entitled, "Rally to Introduce Resistance to UCLA Students" distributed on the UCLA campus:

RALLY to introduce RESISTANCE to UCLA STUDENTS



Speakers will include:

BILL GARROWAY - presently facing a 5 year jail sentence for refusing induction - helped to organize California Resistance with David Harris.

GIL LEVY - a U.C.L.A. law student working with the Resistance.

SHERRI SIEGEL - family member of the Peace House in Pasadena which was set up in connection with the Pasadena Sanctuary to continue Resistance work.

CURTIS KIRKAR - a Vietnam Veteran and also a member of the Peace House.

On July 31, 1969, RANDALL R. PAULSEN, a student at El Camino Junior College, Torrance, California, provided the FBI at Los Angeles, California, a leaflet entitled, "You Don't Have to Go" distributed by Resistance people on the El Camino Junior College campus:

YOU DON'T HAVE TO GO

IF YOU DON'T WANT TO GO INTO THE ARMY THERE ARE WAYS FOR YOU TO STAY
OUT. YOU HAVE MANY CHOICES OF ACTION. AT THE BOTTOM OF THIS LEAFLET THE

YOU WHO DO NOT HAVE TIME OR DO NOT WISH TO DO THIS THERE ARE STILL WAYS.
THE ARMY DOES NOT WANT PROBLEM MAKERS AND WILL NOT TAKE THOSE WHOM THEY
BELIEVE ARE PSYCHOLOGICALLY UNSTABLE, IMMORAL, LACK A CERTAIN INTELLIGENC

REPORT. IN THIS CASE IT IS MOST LIKELY THAT YOUR DRAFTBOARD WILL WRITE
YOU A LETTER IN A COUPLE OF MONTHS, TELL YOU THAT YOU MISSED YOUR INDUCTI
INFORM YOU THAT THIS IS PUNISHABLE, AND GIVE YOU A NEW DATE TO REPORT(OR
YOU COULD CALL THEM AND GIVE THEM A REASON WHY YOU MISSED). ANOTHER POS
BILITY IS TO REFUSE INDUCTION, TO REFUSE TO STEP OVER THE LINE . YOU
WOULD BE BROUGHT TO TRIAL IN 6 OR 7 MONTHS, BY WHICH TIME THE LAWS MIGHT
HAVE CHANGED. THERE IS A GOOD CHANCE OF WINNING A CASE LIKE THIS BECAUS
OF THE MANY TECHNICAL BLUNDERS THE SELECTIVE SERVICE SYSTEM MAKES. AND
ANY TIME UP TO SENTENCING YOU COULD SAY "I MADE A MISTAKE" AND GO IN THE
ARMY WITHOUT PUNISHMENT IF YOU CHOSE TO DO SO. THOSE CONVICTED OF DRAFT
REFUSAL IN THE L.A. AREA ARE USUALLY GIVEN 3YEAR SENTENCES(GETTING OUT
AFTER 2 YEARS ON "GOOD TIME") IN FEDERAL MINIMUM SECURITY PRISONS. A LA
POSSIBLE ACTION IS TO REFUSE TO COOPERATE WITH ANY PHYSICAL OR INDUCTION
PROCESSING. TO DO THIS IS TO SAYTHAT YOU REJECT THAT FEAR WHICH TAKES M
AND FORCES THEM AGAINST THEIR WILLS TO KILL THEIR BROTHERS.

INSIDE THE INDUCTION CENTER THE OFFICIALS WILL DO ALMOST ANYTHING T
YOU IN THE ARMY. THEY WILL HERD YOUR THROUGH THEIR TESTS AND QUESTIONAI
AS FAST AS THEY CAN SO THAT YOU WILL NOT HAVE THE TIME TO THINK OR TO GI

On October 17, 1969, a Special Agent of the FBI, Los Angeles, California while conducting Bureau business in the downtown Los Angeles area was handled a leaflet entitled, "Stop the Draft Day, October 21":

STOP THE DRAFT DAY: OCT 21

As we participate in the National Moratorium against the war in Vietnam, the machinery of militarism continues to operate in the United States by feeding enslaved young men into a war of genocide. The Moratorium against the war is effective only if it leads to more direct forms of protest. In other words, we must also commit our lives to more direct confrontation with the machine itself.

Many young men faced with the draft today haved denied the government the use of their lives as cogs in a murderous and dehumanizing war machine. As a result, thousands of young men face imprisonment for honorable noncooperation with conscription and war. This quiet nonviolent struggle continues amidst the overwhelming support of the Moratorium.

Early Tuesday morning, October 21, Ralph Alvy, a member of our community attending U.C.L.A., will refuse induction into the United States armed forces. A demonstration has been called in support for Ralph and all other young men presently in prison or facing imprisonment for civil disobedience against the draft and the Vietnam war. The demonstration will take place Tuesday in front of the Los Angeles Induction Center, 1035 South Broadway, at 6:30 AM, the time when Ralph refuses induction.

Please join us and show your continued support for the struggle that shall build a society of brotherhood among men.

THE COALITION

On April 29, 1969, a confidential source advised that The Coalition was formed on the University of California, at Los Angeles (UCLA) campus during the week of April 14 - 18, 1969, as a result of the efforts of a number of "left-wing" groups, students, and professors to bring together all liberal elements on campus into an organized front for the purpose of confrontation with the UCLA administration. The Coalition is not an entity and has no members, as such, but only representatives from the various campus groups plus a few nonaffiliated radical students and professors.

On April 24, 1969, Officer JACK GUSTAFSON, UCLA Police Department, described The Coalition as being comprised of members of the Students for a Democratic Society (See Appendix), the National Lawyers Guild (See Appendix), the Young Socialist Alliance (See Appendix), and the Resistance.

> The Resistance is self-described in its literature as an organization of individuals who refuse to cooperate with the Selective Service System and are protesting the war in Vietnam.

The Los Angeles "Resistance" is a branch of a national organization utilizing the same name and based in New York City. There are "Resistance" offices located throughout the country, each office operating autonomously.

PEACE ACTION COUNCIL

The "People's World", a weekly west coast communist newspaper, in its issue of November 5, 1966, in an article on Page 3, describes the Peace Action Council (PAC) as "a co-ordinating agency for peace activists" which conducts emergency mobilizations and demonstrative actions against the war in Vietnam.

On July 22, 1966, a source reported that the PAC, which has also been known as the Greater Los Angeles Peace Action Council (GLAPAC), was formed during the early summer of 1966 for the express purpose of protesting the war in Vietnam during the National Governors Conference held in Los Angeles, California from July 4 to July 8, 1966. Following the conclusion of that conference, the PAC members decided to continue as a coordinating group to sponsor similar protest demonstrations at later dates.

This source was recontacted on August 1, 1969, and reported that the PAC continues to operate under the same basic concept, noting that in 1968 and 1969, PAC had sponsored demonstrations againsts Presidents JOHNSON and NIXON, protesting the policies of their respective administrations governing American military commitments in Vietnam. PAC presently maintains its headquarters at 555 North Western Avenue, Los Angeles, California 90004, telephone 462-8188.

STUDENTS FOR A DEMOCRATIC SOCIETY (SDS)

A source has advised that the Students for a Democratic Society (SDS), as presently regarded, came into being at a founding convention held June 1962, at Port Huron, Michigan. From an initial posture of "participatory democracy" the line of the national leadership has revealed a growing Marxist-Leninist adherence which currently calls for the building of a revolutionary youth movement. Concurrently, the program of SDS has evolved from civil rights struggles to an anti-Vietnam war stance to an advocacy of a militant anti-imperialist position. China, Vietnam and Cuba are regarded as the leaders of worldwide struggles against United States imperialism whereas the Soviet Union is held to be revisionist and also imperialist.

At the June 1969, SDS National Convention, Progressive Labor Party (PLP) forces in the organization were expelled. As a result, the National Office (NO) group maintained its National Headquarters at 1608 West Madison Street, Chicago, and the PLP faction set up headquarters in Cambridge, Massachusetts. This headquarters subsequently moved to Boston. Each group elected its own national officers, which include three national secretaries and a National Interim Committee of eight. Both the NO forces and the PLP forces claim to be the true SDS. Both groups also print their versions of "New Left Notes" which sets forth the line and the program of the particular faction. The NO version of "New Left Notes" was recently printed under the title "The Fire Next Time" to achieve a broader mass appeal.

Two major factions have developed internally within the NO group, namely, the Weatherman or Revolutionary Youth Movement (RYM) I faction and the RYM II faction. Weatherman is action-oriented upholding CASTRO's position that the duty of revolutionaries is to make revolution. Weatherman is regarded by RYM II as an adventuristic elitist faction which denies the historical role of the working class as the base for revolution. RYM II maintains

APPENDIX CONTINUED

STUDENTS FOR A DEMOCRATIC SOCIETY (SDS)

that revolution, although desired, is not possible under present conditions, hence emphasizes organizing and raising the political consciousness of the working class upon whom they feel successful revolution depends. Although disclaiming control and domination by the Communist Party, USA, leaders in these two factions have in the past proclaimed themselves to be communists and to follow the precepts of a Marxist-Leninist philosophy, along pro-Chinese communist lines.

A second source has advised that the PLP faction which is more commonly known as the Worker Student Alliance is dominated and controlled by members of the PLP, who are required to identify themselves with the pro-Chinese Marxist-Leninist philosophy of the PLP. They advocate that an alliance between workers and students is vital to the bringing about of a revolution in the United States.

SDS regions and university and college chapters, although operating under the outlines of the SDS National Constitution, are autonomous in nature and free to carry out independent policy reflective of local conditions. Because of this autonomy internal struggles reflecting the major factional interests of SDS have occurred at the chapter level since the beginning of the 1969-70 school year.

Dear friends,

The **Los Angeles** Resistance has moved into a new office at the Haymarket on 507 N. Hoover in Silverlake(1 mile south of Santa Monica Blvd.) The Haymarket is a new center for the "movement" in L.A. Now there is a coffee house with radical literature available to read, a room with a fairly large stage, a movie room, a room for several offices and a print shop. Resistance is the only radical group that has moved in yet, but Newsreel is pretty definite on setting up another branch office at the Haymarket. The movement center is a good place for Resistance to have its office. It will not only give us a place to expose our ideas about Resistance and nonviolence to many other people, but it will provide us with an environment to learn different viewpoints and to pick up information. To enable the Haymarket to survive money is needed. The place will be run on donations for all events and food. So Resistance is needed to help build the Haymarket into a true community center. First, Resistance needs to start a support community with money contributions on a regular basis to help out with the rent at the Haymarket. Second, and just as important, Resistance needs committed individuals who will donate their time to work in the office of coffee house. The Haymarket can use any talented people that can entertain or speak (or if you have contact with entertainers,speakers, or actors,films etc.) Tables and especially chairs are needed, too. Later I would like to see a traveling Resistance to go to high schools and colleges and to use the Haymarket as a base. And as soon as we can get a draft counselor to donate some time we will have draft counseling(by the way there will also be GI'S around to make the coffee house for them too.I think"Up Front"will be printed here).

As Richard Shaull writes in his essay Containment and Change, "the shape of the new order becomes most clear, not in a definition of a set of new ideals, but in a living community which expresses and at the same time points to a new reality of social existence, and provides a laboratory in which its diverse aspects can be experimentally worked out." So please help us out. Let's get Resistance going in Los Angeles . We don't have a phone yet, but you canr reach me by calling the pay phone at the Haymarket 660-9784 or if really necessary by calling the Haymarket business phone at 662-8987. Please try to at least come by and see what is going on.

with love, for peace
sincerely,

Informant advised that the Resistance is, in his opinion, quite inactive as an organization. Their office has moved to the Haymarket Building at 507 N. Hoover Street, Los Angeles, and their activities as such consist mainly of draft counseling in various Los Angeles, Pasadena, and Whittier areas from time to time.

The Haymarket Building is a meeting place for all such type of organizations in the Los Angeles area. Anyone or any organization is welcome to meet there as far as can be determined.

The Resistance has really no leadership and is more or less a disorganized venture, run by just who ever happens to be around at the time. Funds are limited for lack of support by any particular group to informants knowledge.

The purpose of this rally was to inform students of an impending "action", sponsor unknown, to take place "spontaneously" in ten major US cities, on 14 January 1970 in front of Induction Centers

In "waves" of a few persons, the doorway to the Induction Center at 1136 S. Broadway will be blocked; when those few are arrested, another "wave" will take their place. It is assumed that this activity will close down the center.

Action will commence at 0600, with assembly at 0530; a guess at participation will be 50 to 100 people, with perhaps 20 coming from Claremont.

2) Demonstration vs. U.S. repression against minorities - question of conflict with action called by Friends of Panthers in black community. Also SMC proposed action at L.A.C.C.
3) Projected Canadian visit at ~~Montreal~~ Vancouver of world peace leaders. Feb. 7,8.
4) Projected rock concerm, Coliseum, Feb. 22.
5) Structure
6) G.E. Strike support
70 Action on Feb. 14th - nation wide.
8) Viet-nam Veterans Against the War
9) Projected regional conference.

Agreement to take up poi[illegible]s according to date scheduled:

1) Jan. 14th: Resistance planning sit-ins at Induction Centers. Meeting Tuesday at Valley Peace Center to plan.
M/M/S/C: If Resistance and W.S.P., etc. calls for such action, P.A.C. will support and participate in whatever way possible.

2) Feb. 7,8th: Went Vancouver meeting. Charter flight available from San Francisco r.t. @ $75 (plus fare r.t. to S.F.-L.A.). Larry Davis opposed PAC participation because it may open door to red-baitingof peace movement; also "tendency of world people to try to tell us how to do things in U.S. peace movement". Bob Klonsky supported proposal. Martin Hall proposed token delegation of two or three, but to retain most of activisits in L.A. in preparation for Feb. 14th mass action. Marque Neal spoke re question of long range perspective to peace movement. Don Kalsih proposed that we send a few people, not a major action of PAC. PAC will notify affiliates of arrangements and leave implementation for participation in hands of participating organizations. Also notify broad groups and invite them to participate. Rade Konigsberg: Hold Pre-departure meeting for planned presentation at Vancouver meeting from S.Cal. area. Amdmt: Sophie Silver: PAC send three people.
Proposals made to incorporate Irv's proposals to participate in Vancouver meeting with Kalish's proposals. Amendment: Hold demonstration at International Peace Bridge. So ordered.

3) Feb. 22: Vietnam Moratorium Rock concernt, Coliseum. $2.00 admission. 2 P.M. John Lennon, Wolfe, Iron Butterfly, etc., as peace benefit. Publicity and front money arrangements made. Distribution of funds worked out.

4) New organization: Vietnam Veternas Against The War. Based at Vietnam Moratorium offices, 3846 Ingraham St. Purpose: lobbying power and education, e.g. establishment of speakers bureau, etc. Phone: 380-3611.

5) Feb. 14th: Report on proposals from Cleveland New Mobe meeting. Action proposed: either mass meeting or mass demonstration.

Don Kalish proposed to move the agenda to question of structure and relationship of PAC to broader coalitions. Klonskly proposed content should be prior to structure. Bob Gluck showed copies of New Mobe San Francisco poster on "Silent Majority" and announced posters and postcards available.

6) Question of structure: Sylvia Shapiro raised parallel between Nazi repression and present U.S. situation and actions vs. Black Panthers. Steve Schmidt proposed that the peiod of Feb. 14th to Feb. 22nd be designated "Peace Week", beginning with action of Feb. 14th and culminating in Concert on Feb. 22nd, plus local actions on campuses, etc. Marque Neal commented on question of direction of peace in the broad sense, not just cessation of hostilities in Vietnam: inter-relationship of issues. Need for political solutions for peace movement. Sophie Silver pointed out opportunity for new sectors to move into peace movement, e.g., labor and the black community. PAC must relate to struggle of all segments. Art Goldberg proposed that we set goals and issue publicity around 1) working class and non-white areas, linking struggle for peace with problems of inflation, etc.; 2) relate struggle to G.I.'s in serve; collections of food for G.E. strikers - aid on picket lines, for example, maybe each campus take one day per week to assist in picket duty. Bob Klonsky pointed out this is a critical period for the peace movement which now lacks black and labor participation. Intensification of racism is U.S. policy. Must have more education in peace movement. Cannot be "single-issue" oriented and win labor and minority participation. Must act on question of repression. White communities must organize their own communities. Martin Hall: Must follow up on labor participation in Nov. 15th S.F. action, thru G.E. strike support and cooperation with Black ht around the Panthers defense. Parallels with pre-Nazi Germany.

Kalish: problem of structure around relationship between old left, new left, liberals, etc. Nee[illegible]xecutive secretary in P.A.C. [illegible] posed steering committee in bring in propos[illegible]s for reorganization. Need at[illegible]ion to finances. Urged election of new officers for PAC. Ray Henderson pointed out experiences in Atlanta, where SCLC is the Vietnam Moratorium committee. Ben Richman pointed out the parallel between the struggle of the NLF vs. US and the Panther movement of self defense vs. US power. Rafe Koningsberg pointed out we must re-structure the society and peace movement must attack the corporations. Give direct attention to role of corporations in controlling American life, e.g, G.E. and Vietnam and the napalm plants, etc. Pat Arnold pointed out the PAC must be a multiissue organization. Questioned value of food collections for G.E. strikers as a peace issue. Walker Bush riased question of self-interest in various segments of population as way to involve them in peace movement. Stressed PAC functions best in demonstrative actions. Opposed multi-issue approach. Urged main focus remain Vietnam. Al Cohen said we must find a way to unify all segments e.g., black, chicano, etc., and take up ecological questions or we will lose the peace movement. Dennis Rubenstein urged that education be the main role of PAC. Urged that non-violent direction action is best type of education. Bob Gluck urged main focus remain on Vietnam; secondary emphasis on racism, etc. Mass demonstrative action only effective type. Herman Rosenstein: Basic question is who is running this show? Must give more direction and attention to fight vs. the corporations. Corporations at at war vs. thepeople of the U.S. for profits. Larry Davis: Must organize the unorganized peace-minded people as main approach. Move into the communities and get this job done. Don Kalish: still not hitting question of structure. Must have new elections. Urged small committee set up to examine question further.

M/M/S/C: That PAC call city-wide conference to reestablish PAC, enlarge its scope, etc. Amendment: To hold protest demonstration on Feb. 14th against repression in black community.

Discussion continues:
Velma Neal: Repression vs. black community not a separate issue from peace movement. Need collective responsibility to implement program. Art Goldberg: need regional approach. We have differences here in ideology, but can work together. Bob Gluck: New Mobe will hold conference in January to broaden its work in peace movement (So. Calif., Ariz., New Mexico). Don Kalish: should it be just New Mobe, or some other structure?

Proposal: Set up a committee from PAC, New Mobe, Womens Liberation, Black and Brown, etc., to plan a regional conference.

Sophie Silver proposed that we act on question of Peace Week from Feb. 14th to Feb. 22nd, and work toward a regional conference.

Art Goldberg urged that problem of structure must be tackled, so a conference is essential. Proposed a committee of at least 12 to plan perspective and organization. Rafe Konigsberg: main approach must be structure. Bob Klonsky: Committee should incorporate proposals of Don and Rafe for a conference. We must also have a committee to plan the Feb. 14th action. He proposed we set up a committee of 3 to be enlarged to at least 12. Martin Hall urged that we enlarge staff of PAC with paid people; contact affiliates for funds. Irving Sarnoff pointed out question is quality of leadership: to raise peace movement to a new level requires greater committment.

M/M/S/C: To set up two committees:
1) On the Feb. 14th Action: Bob Klonsky to chair, with Steve Schmidt, Ray Henderson, and Marque Neal on Committee.
2) On Conference and structure: Irving Sarnoff and Don Kalish to set up committee. Also Victor Ludwig will serve on committee.

Additional volu[illegible] to serve on committees:
Conference Committee. Rafe Koningsberg
Feb. 14th Action Committee: Blanche Spindell

The meeting was then adjourned at 10:45 P.M.

Respectfully submitted,

E. Monjar. (PAC staff)

Dear Alexander:

I made it back to L.A. with the only problem being that I was delayed at the L.A. Airport for about three hours while they read all my documents!

I am enclosing a few samples of G.I.publications as well as a list of G.I. papers from various points in the U.S.

The demonstration in Oceanside (see clipping) was a great success and involved about 1000 active duty marines.

I have not yet been able to obtain the full report of the Senate Internal Security Committee on the peace movement, but as soon as it is received I will forward it to you. In the meantime I have enclosed an excerpt from the Congressional Record of the U.S. Senate dealing with the matter.

I am also enclosing some names, titles, and addresses of individuals we discussed who should receive direct invitations from the Stockholm Conference to the meeting planned in Stockhom in February. They might also response to an invitation to the preparatory meetingin January.

As we discussed, however, transportation is always a problem.

We are now in the process of developing plans for our visit with our World Peace Council friends in Canada as well as a program of action for the winter and spring in regards to the Vietnam war.

Hoping to see you soon, I am,

Yours for Peace,

Irving Sarnoff, Chairman,

Dear Friend:

It was a great honor to be with you and others at the Presidium meeting of the World Peace Council in Khartoum.

I have enclosed some newspaper clippings from local U.S. newspapers dealing with the "prisoner" issue. As you can see, there is great interest about this matter in the U.S.

The American atrocities against the people of Vietnam are being ignored by using this issue to hid American responsibility. Those of us in the American Peace Movement recognize full well our responsibility to inform the U.S. people of the criminal acts perpetrated against the Vietnamese people. We also know our responsibility in informing the U.S. people about how the U.S. aggressors kill and torture the prisoners and people of South Vietnam.

I was glad to see that the Democratic Republic of Vietnam has agreed to supply information to the families of American criminals held in North Vietnam. It indicates once again the humane character of your government as compared to those that continue to violate the rights of the Vietnamese people. If there is any way that I can help in this matter, please feel free to call upon me.

It is my hope that nothing be done that will harm the struggle of the Vietnamese or American people to end the war and immediately and unconditionally withdraw all U.S. and allied forces from Vietnam.

Hoping to hear from you, or perhaps see you in the near future, I am,

Fraternally,

Los Angeles TIMES
Times Square
Los Angeles, Ca. 90012

To the Editor:

Mr. H. Ross Perot, Texas billionair, announced (L.A. TIMES, Dec. 26th) his desire to "see the war from the North Vietnamese point of view". Americans, he said, are concerned about questions of whether the North Vietnamese "respect and value individual human lives in the same terms as we do".

This statement above shows clearly the racist hypocritical arrogance of the ruling sections of U.S. society.

The U.S. armed forces go 10,000 miles to destroy another country which never attacked us; kills about a million people; poisons the land; destroys crops, houses, temples; and Mr. Perot is worried about the Vietnamese regard for human life! His concern is a cover-up for a policy that he supports: a policy that leads to genocide of a people as was shown at Songmy.

Does Mr. Perot know that U.S. soldiers in South Vietnam kill and torture the prisoners that we take? If Mr. Perot is such a great humanitarian (as he has gone to great trouble to make us believe) I suggest the following: 1) Aid the victims of U.S. aggression: the women, children and people of South Vietnam. Let Mr. Perot donate some of his $1.5 billion for medicines and food for the sick and hungry victims of this war (without any pre-conditions). 2) Use his influence to get the U.S. out of Vietnam immediately.

The mental anxiety of not knowing the whereabouts of one's loved ones (who committed some horrible crimes by bombing another country) is trivial compared with the anguish caused by these prisoners to the people of Vietnam. It is nevertheless heartening to learn that the Vietnamese are releasing information to the families and allowing mail to be received. The families of the prisoners can perhaps best help to end this whole ugly scene by directing their protests to the U.S. government, urging our immediate and complete withdrawal from Vietnam so that the Vietnamese people can decide their own destiny free from foreign interference.

Very truly yours,

Irving Sarnoff, Chairman,
Peace Action Council of So. Calif.

On January 16, 1970, RICHARD HELLAND, San Diego Shore Patrol, telephonically advised that one FLOYD SMITH was taken into custody on that date at the home of GAIL KAISER, 1211 B Street, San Diego, California. KAISER is in possession of a 1955 Cadillac with South Dakota license 201203. In the recent past, two other deserters have been found living with GAIL KAISER at 1211 B Street in San Diego. Mr. HELLAND stated that KAISER has aided and abetted a total of three Marines who were absent without leave.

HELLAND advised that SMITH was being transported to Camp Pendleton, California.

On January 22, 1970, officials at Camp Pendleton, California, advised that FLOYD SMITH is again absent without leave.

On October 20, 1969, [redacted] was reported as absent without leave from the United States Naval Station, San Diego, California. While reviewing his personal effects, at the United States Naval Base, San Diego, a Special Agent of the FBI noted a piece of scrap paper with the following written on it:

JIMMY LAMAR DURDEN was advised of the identity of Special Agents ALLAN A. TROSCLAIR and DONALD W. MANNO upon his arrest and was subsequently informed of his rights whereupon subject orally waived these rights. The subject was somewhat hesitant to answer any questions but began to give vague answers that may have some validity.

When asked about the Resistance movement in the San Diego area, the subject said he knew of no names of the leaders, but did know and was aware that there was a Resistance movement in the area. He went on to say, again, in vague terms which he would not clarify, how much marijuana, and other narcotics was on the Navy Station premises in San Diego. Subject claimed that the dependent children of servicemen brought narcotics into the Thirty-second Street Naval Base and the marijuana could be had in the resitricted barracks.

The subject explained that most of the servicemen are contacted by the Resistance through friends or by just appearing in the Square in downtown San Diego.

When asked if he knew of any headquarters of operation centers or their locations of the Resistance, the subject at first was hesitant but eventually said that he felt the Resistance did some printing out of a building in the vicinity of Sixth Avenue and Fir Street, at a house known as the "Flag House".

No other information of note could be obtained from this subject other than the fact that he had not been aided by the Resistance at any time during his period of absence from the military.

HAROLD ALLEN DOSS, JR., was originally interviewed on November 24, 1969, at Base Brig, Marine Corps Recruit Depot (MCRD) San Diego, California, and advised that he had received aid in getting off the base from an individual named BOB (LNU), who worked on the base. Subject stated he did not know whether BOB was a military or civilian employee but that he does drive a 1967 yellow Mustang with black vinyl top and uses no base pass but rather a visitor's pass daily.

BOB took subject off the base at a friend's house but could not recall this friend's name. Subject later left the house because he did not approve the moral attitude of the individual.

The house is located somewhere in India Street in San Diego.

Subject advised that in Spokane, Washington, an establishment known as the EMF, located two blocks east of local police department and two blocks north, is a hangout for hippie types and deserters from the service. Subject advised that people who frequent the EMF were users of narcotics. Subject also advised that a small town west of Medford and Grant's Pass, Oregon, known as Caves Junction, was also a gathering point for the hippie types and deserters seeking entrance into Canada.

Subject was reinterviewed on December 18, 1969, in Base, Brig, MCRD, San Diego, California. Subject advised that he met a MIKE STAGGER (phonetic) while in sickbay and they decided to go on Unauthorized Absence together.

STAGGER knew people on the base and introduced subject to a friend in the library known as BOB. BOB said he would take them off the base, get them clothes and find a place for them to stay.

III. COMMUNITY CRISIS CENTER

B. Officers and Activists

On January 7, 1970, SA JAMES W. BERRIAN, California Department of Justice, Bureau of Criminal Identification and Investigation (CII), San Diego, California, made available a copy of a newspaper article printed in the La Jolla Light and La Jolla Journal, a La Jolla, California, newspaper dated Thursday, December 19, 1969. This article, captioned "Ex-Panther Calls S.D.'Mississippi of West'" describes a speech made by KENNETH DENMON, a former local Black Panther leader, to an all-white discussion group of about 35 persons at a meeting at the home of Mr. and Mrs. PETER WEILER, La Jolla, California. DENMON stated that he spent four years in prison where he came to know ELDRIDGE CLEAVER, a Black Panther Party leader, before being paroled to attend San Diego State College (SDSC). He stated that he is now active in the Southeast San Diego Crisis Center, which provides services, including legal advice, and medical attention for residents of the area.

After hearing DENMON's speech, the group discussed the possibility of raising a $25,000 fund to provide bail for persons arrested on charges growing out of racial activities and spoke of forming additional discussion groups to hear speakers from the minority community.

A characterization of the Black Panther Party is contained in the appendix attached hereto.

C. Current Activity

On January 14, 1970, Officer JACK PEARSON, Intelligence Unit, San Diego, California, Police Department, made available the following information:

On Saturday, January 14, 1970, a deceased individual, ROBERT PHILLIP ASHLEY, a white male, age 22 years, who had resided at 133 West 11th Street, Escondido, California, was found in a 1965 Chevrolet automobile with California license GEC 437 in the 100 block of North 30th Street in a parking lot near the entrance of the Community Crisis Center, 3004 Imperial Avenue, San Diego, California. When police arrived at the scene, people from the Community Crisis Center were milling about and DIANE SELMA LEAVITT was screaming that she was a nurse and could give oxygen to ASHLEY, the deceased person.

FOIA(b)(6)
FOIA(b)(7) - (C)

ASHLEY had been brought to that area by [redacted] [redacted] Escondido, California, and ANDREW JOSEPH HOERL, 1325 South Kalmia, Escondido, California. These two individuals had driven the car to the parking lot, which contained the body and had entered the Community Crisis Center to seek help.

Community Crisis Center people were uncooperative and hostile toward the police. LEAVITT prevented officers from entering the Crisis Center to talk to [redacted] and HOERL and attempted to stop police from taking these witnesses to the Police Department for questioning. She shouted at the officers in a loud voice and jumped between the officers and HOERL attempting to physically restrain the officers. She was hysterical and was shouting obscenities at the officers. She tried to arouse the gathering crowd of onlookers against the police officers.

RICHARD E. SAVITZ, 1346 Garnet Avenue, telephone number 272-1234, arrived at the Police Department to speak to HOERL and refused to let police officers give him tests to determine whether or not he was under the influence of narcotics. Officers observed needle marks on HOERL's arm and noted that he appeared to be obviously under the influence of narcotics. A Dr. WILLIAMS examined HOERL and noted four needle marks but could not confirm that he was under the influence of narcotics. The deceased individual was determined to have died of an overdose of narcotics.

As a result of the above incident, DIANE SELMA LEAVITT, 3735 Pio Pico Street, San Diego, was arrested and charged with interference with officers, disturbing the peace and battery. At the time of her arrest, she again resisted attempts of the officers to place her under arrest and verbally abused the officers.

The following article appeared in the San Diego Union, a San Diego, California, newspaper on January 12, 1970:

Police Interference Charged In Arrest

A Point Loma woman was arrested Saturday on a warrant charging interference with police, disturbing the peace and battery on police officers Wednesday at the Crisis Center at 3004 Imperial Ave., where she is an official.

The woman, Mrs. Diane Selma Leavitt, 31, of 3735 Pio Pico St., was booked in County Jail and later released on $625 bail.

Detective Lt. E. C. Stevens said Mrs. Leavit interferred with detectives trying to investigate the death of Robert P. Ashley, 22, of 133 W. 11th St., Escondido, whose friends drove him from Escondido to the Crisis Center after he reportedly took an overdose of heroin in a Quince Street apartment there.

Stevens said the peace disturbance change was based on the obscene and profane language used by the woman in talking to police, and the battery charge grew out of her efforts to prevent detectives from removing one of the two Escondido friends of Ashley from the Crisis Center.

FEDERAL BUREAU OF INVESTIGATION

Date January 26, 1970

An attempt was made to interview DIANE SELMA LEAVITT, 3735 Pio Pico Street, San Diego, California. At the time, SA STEVEN L. CHRISTENSEN and EARL M. PETERSEN identified themselves to LEAVITT, she stated that she wished to make no statement without the presence of her lawyer.

Mrs. LEAVITT was advised that an investigation is being conducted concerning the harboring of deserters and absent without leave personnel from military bases in the San Diego area. She was asked no further questions.

FEDERAL BUREAU OF INVESTIGATION

Date January 26, 1970

ROBERT "BOB" RICHARDS, Coordinator, Urban Affairs Programs, University of California at San Diego, California, was interviewed at the offices of the University Extension, Urban Center, 3004 Imperial Avenue, San Diego, California, which is also the location of the offices of the Community Crisis Center. RICHARDS was advised that should any of the questions asked him concern personal involvement, he was not required to answer the question and could contact an attorney of his choosing as he desired to.

Mr. RICHARDS advised that he has had considerable contact with the Community Crisis Center when it was formed and during its operation since that time. He said that although the Community Crisis Center has been established to aid persons in need of help, the policy of the Community Crisis Center is not to violate the law in any way. He stated that to the best of his knowledge, no one at the Crisis Center would knowingly aid any individual who was in a fugitive or deserter status but would advise such persons to immediately contact local law enforcement officials or return to the custody of military authorities in order to provide a solution to their immediate problems.

He advised that the Community Crisis Center provides advice and counseling, free legal and medical aid and occasionally provides food and shelter to individuals desperately in need of such services.

Mr. RICHARDS advised that he has no personal knowledge of any occasion when an individual who was in an absent without leave or deserter status was helped by anyone connected with the Community Crisis Center.

HELP AFTER HOURS

Crisis Center Aids Thousands

By NANCY RAY

A woman, convinced her husband is planning suicide, telephones the Crisis Center to gain advice and reassurance.

Several teenagers visit the clinic at the Crisis Center, seeking medical aid and counseling for drug habits which are out of control.

A couple who believe they have been swindled out of their savings seek legal advice at the Crisis Center.

Those and over 12,000 other requests for aid and information have been handled by the infant organization founded last Jan. 6.

Two San Diego State graduate students in the School of Social Work started the Crisis Center which shares the second floor of 3004 Imperial Ave., with the UCSD Urban Center offices.

Need Found For Emergency Service

The services they offer are free. The staff of professionals and amateurs are unpaid volunteers. The theory of the two youthful founders has been proved; there is a need for emergency service during the hours after the regular social service agencies are closed.

Crisis Center now receives about 2,000 telephone calls and visits monthly during its evening and weekend "business day."

Most of those seeking help can't wait until the next morning or the following week. So Crisis Center staff members cope with the immediate needs of the caller, then refer him to a regular agency for further treatment of his problems.

Ed Moncrief and Diane Leavitt, the two graduate students who started the center, have had a few crises themselves during its first year of operation. Money, or, more precisely, the lack of funds, is the continuing crisis at the center.

But somehow the unpaid crew has managed to maintain a 6 p.m. to midnight answering service on weekdays which is extended to 1-7 p.m. hours on Saturdays and Sundays.

Volunteer Attorneys Available Two Nights

Two nights a week, on Tuesday and Thursday evenings from 7 to 9, the center's legal clinic is manned by volunteer attorneys who attempt to unsnarl the legal difficulties of the center visitors who are unable to pay for the legal services and unable to find another source of unpaid legal advice because of the restrictions on cases handled by the more formally organized groups.

Crisis Center's aim, Moncrief said, is to meet the needs of an individual in the manner best suited to the needs of the person seeking help.

"Flexibility is really important here," Moncrief said. "We've often got to make do with what resources we have in order to solve a person's problems. And everybody needs more than one sort of help—which is what most social service agencies are geared to give."

At Crisis Center a visitor to the legal clinic also may need medical or psychiatric counseling, an emergency supply of food and advice on how to apply for more permanent aid or training. At the center, all these services are offered under one roof.

The center's umbrella of aid often is shy of needed items but church groups, service organizations and many individuals donate food supplies for the emergency grants, clothing, furniture and medical equipment, and another important commodity, their volunteer time to keep the loosely-knit organization running.

Patients Treated Without Charge

On Monday, Wednesday and Friday evenings, the center's corridors become waiting rooms from 6 to 10 p.m. as volunteer doctors, nurses, technicians and other medical staff members treat without charge the needs of up to 75 or 80 patients nightly.

The volunteers, most of whom come from University Hospital to donate their off-duty hours to the effort, often treat their patients without going through the normal routine of getting a case history and personal background.

Moncrief explained that the center has gained the confidence of many persons who need medical aid but fear that if they seek it at a government agency, they will be subjected to arrest or, if they are minors, that they will be sent back to their parents.

"We have a policy that a person does not even have to give his name in order to receive help here," Moncrief said. "It's the only way to reach some people who really need help."

This flexibility of operation has proved successful in reaching persons who fear the more formal aid organizations but it has not helped the center's volunteer administrative staff in finding sources of funds to keep the center going.

Some sources, including the county Board of Supervisors, have passed the center by for more established emergency service agencies. Other sources have been checked and rejected by the center's staff because of the red tape and strings attached to money grants which, in Moncrief's opinion, "would negate the whole purpose of the Crisis Center."

Center Receives Windfalls In Time

Chris Bennett, another San Diego State social work graduate student, give some of the credit for the center's continued existance to luck. So far, at least, something has always turned up when the future of the center was in doubt.

One such windfall was a grant, without strings, from UCSD's extension division urban center which paid the salaries of three staff members — all young graduate students — during the summer months.

Another lucky break was the appearance of a young physician, fresh from a Navy tour of duty. Dr. Phil Groce volunteered his time and recruited other medical personnel for unpaid duty. Raphael Levens, a UCSD law student, aided in recruiting an unpaid legal staff in the same way.

Most recently and fortunately is a grant from Ernest Mandeville, a San Diegan retired from a long career as a writer and publicist, which will pay a portion of the center's expenses for a while — another reprieve from financial ruin.

Miss Bennett, one of a score of social work students giving long hours to the center cause, admits that money still ranks at the top of the list.

"But participation by residents in the community, more volunteers from outside our present groups, and a dozen other items come close behind the funds in importance," she said.

"We've been going almost a year now on lots of ideas and no money," she said. "I guess we'll just keep it up until everybody realizes how important this center is."

IV. THE WAITING ROOM

C. Current Activity

On January 21, 1970, it was observed that the GI coffee shop commonly known as "The Waiting Room" in the 400 block of J Street in downtown San Diego, was apparently open for business. This appears to be a relatively small room with some tables and chairs and with windows only in the front of the room. A sign had been tacked on the wall adjacent to the door stating "Deserters and AWOLS not welcome!"

On January 13, 1970, Sergeant JERRY L. JOHNSON, Military service number 1898350, advised that he is assigned to a military police company of the Marine Corps attached to the Navy Shore Patrol in San Diego. On Sunday night, January 11, 1970, two men were seen to leave the coffee shop in the 400 block of J Street, San Diego, California, called "The Waiting Room" and walk down the street. These individuals were apprehended by the Shore Patrol because of the uniform they were wearing. They were taken to Shore Patrol station in downtown San Diego, where six individuals soon appeared in a protest demonstration against the arrest of the two individuals. Four of these individuals who were military servicemen were arrested and two civilians were not detained.

An examination of records at the Shore Patrol Station, 726 Second, reflected that Private GLENN A. WATSON, Marine Service Number 238 32 65, assigned to the Ninth Service Bulk Fuel Company, Fifth Marine Division, Camp Pendleton, California, and Lance Corporal RICHARD R. AYDT, Marine Service Number 248 52 02, assigned to the Third MAW HML, 267 MAC 56 were the two individuals arrested when they came out of the "GI Waiting Room" and Free Press located on J Street between Fourth and Fifth Avenue. WATSON was asked if he was in the service and when he stated that he was he was taken into custody. He was wearing a peace medallion around his neck and was found to have in his possession underground papers, including notices of the Movement for a Democratic Military (MDM) and notes regarding the last meeting of the MDM as well as four copies of the San Diego Street Journal.

Following are Xerox copies of the items WATSON had in his possession:

MOVEMENT FOR A DEMOCRATIC MILITARY:

Believing that ending the suppression of the American serviceman is an important part of a larger struggle for basic human rights, the Movement for a Democratic Military pledges support for the self-determination of all peoples. We are dedicated to using every means at our disposal to bring about a prompt end to the war in Vietnam, the exploitation of our brothers and sisters abroad, and the repression--both physical and economic--of those in our own land. We feel that by remaining silent, the serviceman has contributed to the denial of this deep-founded right of himself and of people everywhere to live free from intimidation and oppression. We have been silent for a long time. We will be silent no longer.

1. We demand the right to collective bargaining.
2. Extend all human and constitutional rights to military men and women.
3. Stop all military censorship and intimidation.
    We demand the right to obedience to individual conscience - moral, political or religious.
    We demand the right to refuse politically objectionable duty such as riot control and Vietnam duty.
    We demand that M.P.'s be kept out of our civilian lives.
4. Abolish all mental and physical cruelty in military brigs, correctional custodies, and basic training.
5. We demand the abolition of the present court-martial and non-judicial punishment systems.
    All cases would be subject to automatic review by a board of civilians elected by all military men having one vote each.
    Trial by jury and court of one's peers by rank.
    Eliminate all physical custody before trial.
    Place the military judicial system outside the chain of command.
6. We demand wages equal to the federal minimum wage for civilians.
7. We demand the abolition of the class structure of the military.

    End saluting and sir-ing and special officer privileges and segregation.
    End all rank privileges.
    We demand the right for an enlisted men's elected review board of officer conduct.
    We believe that respect can only be earned on a human-relating-to-human basis.
8. End all racism everywhere.
    Bring to immediate trial, by the system described above, all officers and senior enlisted men who foment and exploit race tensions within the military.
9. Free all political prisoners.
    In return for captured American troops in Vietnam, we support freedom and amnesty for Eldridge Cleaver, Huey Newton, the Conspiracy 8, and our brother war resisters at home and abroad.
10. Stop the glorification of war now prevalent in all branches of the military.
11. Abolish the draft and all involuntary enlistment.
12. Pull out of Vietnam now.

~~a Summary~~ There are 4 types of court-martials. a Summary, a Special, (2 types) Battalion level without a certified lawyer and Division level that handles BCD cases when has to have a lawyer counsel. The last type of court is a General. A general and a General courts martial only can award a Dishonorable Discharge and extended brig time of over 6 months.

VI. MESSAGE INFORMATION CENTER (MIC)

FEDERAL BUREAU OF INVESTIGATION

Date January 8, 1970

JACKSON MARVIN OLIVER, Recruit, U. S. Marine Corps Recruit Depot, San Diego, California, serial number 2637970, was interviewed on December 31, 1969 and furnished the following information:

OLIVER was sitting on a bench at the Balboa Naval Hospital in San Diego, California at approximately 9:30 AM on December 30, 1969, when he decided that he wanted to go home. He then walked off the base where he met a young man selling papers on the street. This young man was known only as "FRED." OLIVER told FRED that he could not stand the Marine Corps and had decided to go home. FRED, who looked like a hippie, loaned OLIVER an overcoat and gave him a blue jacket. They walked together to a Good Will Store in San Diego where OLIVER purchased a pair of patched blue jeans for 25 cents and a shirt for 60 cents. He had a total of $3.00 at the time. They then walked to 19th and Market street to a place called Message Information Center. While enroute, FRED told him that he felt that he should go back to the base and stick out his enlistment, but he told FRED that he could not do it.

At Message Information Center, OLIVER was allowed to change clothing and he left his military uniform, including his boots and his medical service record there. FRED drew a map for him showing him how to get back to Message Information Center should he decide to return and obtain his military clothing and go back to the Marine Corps Recruit Depot. At Message Information Center an unidentified individual with brownish-red hair and mustache, talked to OLIVER who advised him he was absent without leave. This individual advised OLIVER that his best solution was to return to the base and to serve out his enlistment. OLIVER again stated that he could not take the Marine Corps and had decided to go home.

OLIVER then went into downtown San Diego where he saw an individual standing on the street handing out a yellow card. This individual had long hair, a black mustache and a

pale complexion and wore a gray coat and black pants. OLIVER felt that this individual looked like some one who would help him and when he approached this individual, he was given one of the yellow cards on which the young man wrote, "Action Communications Center, (213) 296-5600." OLIVER was told that at this address he could obtain help in getting to his home. He then started walking toward Los Angeles and was stopped while walking along Interstate 5 by the San Diego Police Department. The Officer asked him who he was and OLIVER denied that he was a Marine. The officer then asked him to take off his hat which he did and the officer then stopped another Marine and pointed to OLIVER and said, "What would you say this man is?" When the Marine answered that he was a Marine Recruit, the Officer took OLIVER into custody and returned him to military service.

OLIVER stated that he was once talked to by the FBI when he and two cousins CHARLES COOPER and STANLEY HICKS stole a car in Terre Haute, Indiana and took it into Marshall County, Illinois where they were arrested and jailed.

OLIVER stated that his mother had spent $500 to get him "off drugs", but that he had gone back on drugs and had used them until he entered the military service.

OLIVER advised that he liked being in his cell at the detention center because if he went back to his unit he would try to kill himself by any means available to him. He said that he cannot stand the military service and he wants a discharge from the service, even though it would be a dishonorable discharge.

OLIVER furnished the following description of himself:

When OLIVER was returned to military custody, he had in his possession a pamphlet furnishing information concerning "The Counseling Service" on the back of which was a map showing E Street in San Diego and 19th and Market street and refelcting the address of Message Information Center as 531 19th Street, telephone number 232-6621 and the hours 9:00 AM to 12:00 PM and a yellow card containing information concerning the West Coast Counseling Service, Monterey, Oakland and San Francisco California. Xerox copies of these items are attached hereto.

THE COUNSELING SERVICE

A statement adopted by the Unitarian Universalist Association in October of 1965, amended in June of 1966, recognized the "inalienable right of each citizen to obey the voice of his conscience," and called upon its "ministers and other denominational leaders to give counsel and aid to persons considering conscientious objection." In response to this statement and with an eye to a growing need both in and out of the military, a Counseling Service was established in Monterey, California.

BACKGROUND

A Counseling Service was opened in Monterey on May 1, 1969. Since the opening over 900 G.I.'s and nearly 200 civilians have been counseled there. The office is located in downtown Monterey in order that it be readily available to G.I.'s and has a 24 hour answering service to handle emergencies.

The staff of the Counseling Service consists of Catholic and Protestant clergymen, persons formerly in the military, civilian conscientious objectors and other volunteer help.

Because of the expanding demand for counseling and because of the success of the Counseling Service in Monterey, offices were opened in San Francisco and in Oakland in the Fall and in the San Diego area in December.

SERVICES

The primary function of the Counseling Service is to provide information and counseling to those persons who for reasons of conscience are unable to participate in the military and/or combatant duty. In addition, persons are counseled on a variety of problems related to their military or impending military status. A "Rap Room" is provided where G.I.'s can read, write, or discuss with others the problems which burden them, and weekly meetings are held for the purpose of providing G.I.'s with information, legal and clerical counsel, and psychological support.

STOCKADES AND BRIGS

The Counseling Service works with military prisoners in an effort to provide needed counseling and legal aid and with an eye towards improving stockade conditions.

REFERRALS

Many men in and out of the military have no contact with persons who can provide special help. Therefore, an effort is made to refer these men to professional people such as lawyers, doctors, psychiatrists, and clergymen, for this needed assistance.

PUBLICATIONS

The Counseling Service provides help in the publication and distribution of G.I. (underground) newspapers and makes available informational publications concerning G.I. rights, military regulations and procedures, and information related to the resistance movement.

ORGANIZATION

Other activities in which the Counseling Service engages involve the organization and implementation of programs related to the peace movement including lectures, rallies and the Vietnam Moratorium activities.

SPONSORSHIP

The Pacific Central District of the UUA provided the initial funding for the establishment of the Counseling Service and by doing so implemented the recommendation accepted by the Board of Trustees of the UUA at their meeting of November 1968.

That recommendation stated that "The creation of ministries to war resisters is a desirable direction for the Association as it enters an era of specialized ministries." The recommendation continued, "The immediate limitation here is funds...."

The funding of the Counseling Service continues to be a limitation in ministering to war resisters; however, the ministry has begun. And with your help, this ministry will continue and will expand to meet the growing demand.

Many servicemen are discontented with their present status within the military, but unaware of existing alternatives.

Military regulations offer a number of alternatives by which a serviceman can be discharged, ranging from conscientious objection to physical disability. Servicemen can also receive non-combatant status.

The West Coast Counseling Service informs men of their rights and helps them to obtain these rights.

Existing orders can be held up, and a serviceman can begin working out his position in accordance with military regulations.

VII. SAN DIEGO COUNCIL FOR SOCIAL ACTION

C. Current Activity

The San Diego Council for Social Action (SDCSA) continues to be inactive in the San Diego area.

(SD T-2 July 22, 1969)
(SD T-3, July 22, 1969)

A characterization of the SDCSA appears in the appendix attached hereto.

SYLVIA SHAPIRO continues as acting chairman of the SDCSA which has been inactive since the resignation of Dr. FRANCIS HALPERN as chairman during 1968. SYLVIA continues to maintain the mailing list of approximately 300 individuals, as well as treasury funds amounting to approximately $600. This mailing list was utilized for distribution of literature announcing a planned demonstration against President RICHARD M. NIXON at San Clemente, California, on August 17, 1969.

It is possible that SDCSA maybe reactivated at some future date; however, no current plans exist to reactivate the organization which remains completely inactive.

(SD T-2, August 4, 1969)
(SD T-3, August 5, 1969)

MILTON LESSNER, and SYLVIA SHAPIRO are planning to reactivate the SDCSA for the purpose of circulating petitions which will protest the high cost of living in current times.

IX. MISCELLANEOUS DRAFT COUNSELING

C. Current Activity

FEDERAL BUREAU OF INVESTIGATION

Date January 21, 1970

ROBERT HAMBY, 1519 29th Street, San Diego, approached Special Agents STEVEN L. CHRISTENSEN and EARL M. PETERSEN in the vicinity of 1511 29th Street, San Diego, California, and volunteered the following information:

ROD BURTON, a Professor at the University of California at San Diego (UCSD), his wife DEBORAH BURTON, and TRACY SINGLETON presently live in the house at 1511 29th Street. SINGLETON is about thirty years of age and apparently rents a room there. He is employed at the Toyota Garage in El Cajon, California.

Draft counseling meetings are held by the BURTON's in their home every Sunday night beginning at approximately 7:00 PM. Attendance is generally about twenty young men of college age, who arrive in cars which fill up the streets in the immediate vicinity.

HAMBY stated that he has no knowledge as to whether the draft counseling stays within the law or whether it counsels people attending to avoid the draft by illegal means.

At about the time of the conversation with HAMBY, a red Ford Pickup Truck with California license 167 89B arrived at the BURTON residence. The truck was driven by DEBORAH BURTON and NED VAN VALKENBURG was in the pickup with Mrs. BURTON, and both entered the house and were not seen to leave.

DE WITT TRACY HAZELTON, 1511 29th Street, San Diego, California, was advised that he did not have to make a statement to the FBI and that he was entitled to consult an attorney should he so desire. He furnished the following information:

HAZELTON advised that he has never been known by the name TRACY SINGLETON and that he has resided at the home of DEBRA and ROD BURTON at 1511 29th Street, San Diego, California, since aprpxoimately December 1969. He said he takes part in counseling activities held at that residence on some Sunday evenings. Individuals come to be counseled about the Selective Service System and are offered group counseling as well as individual counseling if they so desire. HAZELTON said the counselors are trained by lawyers and that he personally had attended several seminars instructed by an attorney by the name of BILL SMITH from Los Angeles, California. Some of these seminars were held in Los Angeles and some in San Diego and other cities.

The counseling consists of telling interested individuals what their options are within the law and outside the law, as far as their Selective Service System status is concerned. When the individuals are told what they can do which violates the law, they are also told what the penalties would possibly be should they be prosecuted for their violating the law and they are told whether they violate the law or conform to all Selective Service regulations is up to them.

HAZELTON said the counselors can recommend individuals to doctors, psychiatrists and other individuals who will examine them and help them in a legal appeal for Selective Service classifications based upon legitimate defects in their mental or physical health. He stated that he knows of no professional people who will assist anyone to get an illegal or unlawful deferment from the draft.

HAZELTON said he knows of no individuals who have stayed at 1511 29th Street who were in an absent without leave or deserter status.

BLACK PANTHER PARTY

According to its official newspaper, the Black Panther Party (BPP) was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics, and the destiny of the black community. It was organized by Bobby George Seale, BPP Chairman, and Huey P. Newton, BPP Minister of Defense. Newton is presently serving a sentence of 2 to 15 years on a conviction of manslaughter in connection with the killing of an Oakland police officer.

The official newspaper, "The Black Panther," which further describes itself as the "Black Community News Service," states that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to in the publication as "pigs" who should be killed.

"The Black Panther" issue of September 7, 1968, contains an editorial by BPP Minister of Education, George Mason Murray, which ends with the following:

"Black men, Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is a revolutionary culture. Change. Freedom everywhere. Dynamite! Black Power. Use the gun. Kill the pigs everywhere."

Included in the introduction to an article appearing in the October 5, 1968, edition of "The Black Panther" is the statement, "...we will not dissent from American Government. We will overthrow it."

Issues of "The Black Panther" regularly contain quotations from the writings of Chairman MAO Tse-tung of the Peoples Republic of China and feature MAO's statement that "political power grows out of the barrel of a gun."

The national headquarters of the BPP is located at 3106 Shattuck Avenue, Berkeley, California. Branches have been established at various locations throughout the United States.

COUNCIL FOR SOCIAL ACTION, FORMERLY KNOWN AS COORDINATING COUNCIL FOR SOCIAL ACTION

In January, 1966, a confidential source advised that organizational meetings looking to the formation of a political action group were held under the sponsorship of the San Diego Communist Party with these meetings culminating in the formation of the Coordinating Council for Social Action (CCSA). This council is composed of representatives of various peace, student and civil rights organizations in San Diego. The San Diego Communist Party reportedly hopes to keep the CCSA on a broad basis and to avoid red-baiting.

Communist Party members have taken an active part in this council since its inception and continue to do so by holding office, working on committees and managing the finances.

This source advised on May 19, 1968, that the San Diego Communist Party continues to dominate and control the CCSA through active participation of Communist Party members, and that this organization has now changed its name from Coordinating Council for Social Action (CCSA) to Council for Social Action (CSA).

ADMINISTRATIVE

For the information of the Bureau, FRANK SIMPLICIO PESTANA and JEAN KIDWELL PESTANA are both SI subjects of the Los Angeles Office, Bufiles 100-356928 and 100-389985 respectively. WILLIAM GORDON SMITH is on Section A of the Reserve Index of the Los Angeles Office, Bufile 100-448432.

Inasmuch as the attorneys who may be involved in counseling the 21 registrants referred to herein all practice within the territorial limits of the Los Angeles Division and due to the fact that 17 of the 21 registrants are assigned to Local Boards in this Division and all registrants appear to have lived in Los Angeles, the Los Angeles Division is carrying itself as the office of origin in this matter.

It is also to be noted that for purposes of clarity in this report, some of the investigation already reported by other Divisions will be included herein. Therefore, the investigative period will be, of necessity, somewhat protracted.

The synopsis is unusually lengthy in that it contains thumbnail sketches of the registrants. This has been done to facilitate the review by the appropriate Assistant United States Attorney.

On January 23, 1970, Assistant United States Attorney HENRY J. NOVAK, JR., Los Angeles, advised he had been able to consult with United States Attorney WILLIAM MATTHEW BYRNE, JR., on this matter, but that he desired to have a comprehensive report wherein all registrants involved were listed prior to either having them interviewed and/or subpoened before a grand jury in Los Angeles. Assistant United States Attorney NOVAK does not intend to initiate prosecution of the registrants, but will grant them immunity if they testify before the grand jury. When Mr. NOVAK makes the final decision as to which registrant is to be interviewed and/or subpoened, individual case files on each registrant will be made active and individual reports will be submitted to their respective files.

Information copies of this report are being disseminated to the Offices covering the respective Local Boards of registrants referred to herein as well as to some control and security files.

Two extra copies are being furnished the Bureau for any possible additional dissemination desired.

A. INTERVIEW OF COLONEL GEORGE W. SGALITZER, MEDICAL CORPS, UNITED STATES ARMY RECRUITING COMMAND (USAREC), HAMPTON, VIRGINIA.

FD-302 (Rev. 4-15-64)

FEDERAL BUREAU OF INVESTIGATION

1

Date 5/13/69

GEORGE W. SGALITZER, Colonel, Medical Corps, United States Army Recruiting Command, Hampton, Virginia, advised that he is the Surgeon General for the Recruiting Command which has supervision over recruiting activities on the part of the United States Army and also over the Armed Forces Examination and Entrance Stations which are operated in each state in conjunction with processing people under the Selective Service System.

Colonel SGALITZER advised that he has on many occasions in the past ordered an Armed Forces Examination and Entrance Station to re-examine an individual based upon new medical evidence brought to his attention which may have some bearing on whether or not this individual should be considered acceptable for military service. Colonel SGALITZER advised that the matter may arise in many different ways such as a letter from a Congressman, a letter forwarded by the Surgeon General of the United States Army to him, or a letter from the individual involved or his attorney. Colonel SGALITZER advised that he has even had such matters brought to his attention by Selective Service Headquarters in Washington, D. C.

The reaction of the Office of the Surgeon General of the United States Army Recruiting Command as the supervising office for all Armed Forces Examination and Entrance Stations when new medical evidence having a bearing on an individual's acceptability for military service is usually to direct the appropriate Armed Forces Examination and Entrance Station to re-examine the individual involved in light of the new evidence. In the event that a new location or residence is indicated, a station different from the one which originally processed the individual might be designated to perform the re-examination.

Colonel SGALITZER advised that he was familiar with the case of VINCENT ALLAN IANTORNO, who was originally processed through the Armed Forces Examination and Entrance Station in Los Angeles, California, and was subsequently reprocessed through the station at Albuquerque, New Mexico. Colonel

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

SGALITZER advised that he was also familiar with the involvement of Doctor GEORGE R. ROSS, M.D., of Albuquerque, New Mexico, who was a psychiatrist or had a psychiatric practice and who had evaluated IANTORNO as permanently unsuitable for military duty.

Colonel SGALITZER stated that several weeks ago he had noted a pattern in the evaluations of Doctor ROSS, who appeared to disqualify most individuals examined by him from military service. The Armed Forces Examination and Entrance Station in Albuquerque is presently using an Army Captain who is qualified in psychiatry at Sandia Army Base in New Mexico rather than Doctor ROSS for all its examinations. This action was taken through DONALD BUXTON, Captain, Medical Corps, who is a physician and Chief Medical Officer at the Albuquerque Station.

Colonel SGALITZER stated that he has noted several attorneys in the Los Angeles area who appear to present an unusually large number of cases to his office, including the firm of Stewart, Finkle and Mannes; the firm of Margolis, McTernan and Smith; and an individual attorney named MICHAEL GREENE. Colonel SGALITZER advised that members of his staff have estimated that such attorneys have a record of approximately 90% success in having their clients ultimately found ineligible for military service. Colonel SGALITZER noted that it is indeed possible that these attorneys may specialize in this field of law and may present only good cases to him, but he has noted the success rate as unusual.

Colonel SGALITZER suggested contact with the above-mentioned Captain DONALD BUXTON, United States Army Medical Corps, who is the Chief Medical Officer at the Albuquerque Armed Forces Examination and Entrance Station, noting that records at the Army Recruiting Command contain only appeal cases and that they are not filed by category but rather by individual case name. Colonel SGALITZER suggested that Doctor BUXTON would be much better able to isolate those cases which have been handled by Doctor ROSS through the Albuquerque Station.

Colonel SGALITZER also suggested that contact with Lieutenant Colonel DAVID SIEGAL, United States Army Medical Corps, who is in charge of the Armed Forces Examination and Entrance Station in Los Angeles, California, would for the same reason produce a better breakdown of cases which involve handling by any particular attorney or physician in Los Angeles.

Colonel SGALITZER commented that he has quite often been suspicious of the diagnoses of individual doctors when they appear to reach a pattern. He is in particular suspicious of a diagnosis of psychiatric condition or of a previous asthmatic attack within a period of two years. The diagnosis of asthma is almost impossible to rebut since an individual is ineligible for military service within two years of such an attack while the attack may itself leave no medical evidence to give present support to a past diagnosis. The system operated by the United States Army Recruiting Command of Armed Forces Examination and Entrance Stations is therefore almost compelled to agree with the diagnosis of a particular doctor whether or not they detected any patterns on the part of diagnoses from that particular doctor.

Colonel SGALITZER stated he sympathized with Federal-prosecuting authorities in the case of VINCENT ALLAN IANTORNO since they were left with a subject of a pending prosecution for refusal to submit to induction, who had been re-examined and found clearly disqualified for military service. Colonel SGALITZER advised that he knew of no way through which his office could assure itself that a request for re-evaluation coming to their attention did not involve an individual who was presently subject to prosecution.

B. INDIVIDUALS PROCESSED AT ARMED FORCES EXAMINING AND ENTRANCE STATION (AFEES), ALBUQUERQUE, NEW MEXICO.

1. STEVEN JEFFREY BARNA

On June 20, 1969, SA JAMES S. IRVING reviewed the Selective Service file of STEVEN JEFFREY BARNA, Selective Service Number 4-92-46-598, at the Field Attorney's Office, Selective Service System, Los Angeles.

BARNA was found physically acceptable by the Armed Forces Examining and Entrance Station (AFEES), Los Angeles, on October 20, 1967, after having been afforded a physical examination. His physical papers were again reviewed by AFEES on March 21, 1968, and he was again found acceptable.

On June 20, 1968, the Surgeon General of the United States Army Recruiting Branch, found him medically qualified for military service.

By letter from CAROL KRUTHAMER SMITH, Attorney, 3175 West Sixth Street, she advised the commander of the Recruiting Command, Hampton, Virginia, that BARNA was on probation until November 17, 1968, and should be classified 1-Y. The Local Board ordered BARNA for further processing by AFEES on September 30, 1968, for a civil offense waiver interview.

By letter dated January 23, 1969, BARNA was ordered for induction at AFEES, Los Angeles, on February 11, 1969.

On February 7, 1969, BARNA requested a Transfer For Armed Forces Physical Examination or Induction, giving his address as c/o TIM BIGGS, 306 Harvard, S. E., Albuquerque, New Mexico. He gave as his reason that he was absent from his own Local Board area "living and attending school in Albuquerque." He filled out this form at Local Board 1, Albuquerque, New Mexico, and was subsequently ordered for induction at Albuquerque on March 17, 1969. He was found to be unacceptable at that time.

There was located in BARNA's file a letter dated December 26, 1968, from a Dr. THOMAS K. CIESLE, M. D., addressed to Mr. MICHAEL GREENE, Attorney at Law, 1532 Third Street, Santa Monica, California. This letter contained a pyschiatric history and evaluation of BARNA by Dr. CIESLE.

BARNA was classified 1-Y on June 19, 1969.

Mrs. HERRARA advised that both [redacted] and [redacted] are registered with Local Board 1, Albuquerque, and both have advised Local Board 1 of their Los Angeles addresses.

Mrs. HERRARA advised that under normal Selective Service procedure when an individual living in Albuquerque who is registered with a local board in another state receives an order to report for a preinduction physical he would contact Local Board 1, Albuquerque, which would request a transfer of his records to Albuquerque for the physical examination. On request of Local Board 1, Albuquerque, the registrant's local board would furnish Local Board 1 all forms pertaining to the registrant's physical examination.

Local Board 1 would then schedule the registrant for a physical at AFEES, Albuquerque, and advise him of the date. The results of the physical at AFEES, Albuquerque, would then be returned to Local Board 1 which would forward them to the local board with which the registrant is registered.

On July 10, 1969, at the Field Attorney's Office, Southern California Headquarters, Selective Service System, Los Angeles, California, records of [redacted] were reviewed by SA JOHN M. NICKOLS. Results of this review are set forth as follows:

FOIA(b)(6)
FOIA(b)(7) - (C)

[redacted] was ordered on November 22, 1967, to report for examination by Armed Forces Entrance and Examining Station (AFEES), Los Angeles on December 7, 1967. A letter to his Local Board 98 in Los Angeles from [redacted] dated December 14, 1967, advised he had sustained injuries December 13, 1967, in an accident and he had been unable to keep his appointment for physical exam on December 14, 1967. (The file does not show when the physical exam was changed to December 14, 1967).

On December 19, 1967, he was ordered to report for induction at Los Angeles February 2, 1968, and this order was sent to his address at [redacted] Drive in Los Angeles. (His address prior to that time had been [redacted] Hollywood, and in November, 1967, he had been a student at the California Institute of the Arts, address not shown).

The next thing in the Selective Service file is a letter dated January 23, 1968, to the Local Board from [redacted] Beverly Hills, who advised that his son (subject) was now living at [redacted] [redacted] in Hollywood. On February 6, 1968, registrant furnished his new address as [redacted] [redacted] in Los Angeles.

On March 14, 1968, [redacted] was ordered to report for induction at AFEES at Los Angeles on April 1, 1968. Results of this physical examination by AFEES in Los Angeles are not shown, the next thing in the file is a letter dated May 9, 1968, to [redacted] from the Local Board advising that his examination had not yet resulted in a final determination of his status.

FOIA(b)(6)
FOIA(b)(7) - (C)

On June 21, 1968, a form, DD 62, was sent [redacted] informing him that he had been found acceptable for military service and on July 19, 1968, he was ordered to report for induction in Los Angeles, on August 6, 1968.

On August 5, 1968, a Selective Service Form 230 was sent from Local Board Number 1 in Albuquerque to [redacted] Local Board in Los Angeles, requesting an transfer of his physical examination or induction to Albuquerque. This form furnished his address as in care of [redacted], Albuquerque, and he was quoted as saying that he was presently living in Albuquerque "for reasons of health".

An undated letter was received by the Local Board in Los Angeles on August 12, 1968, from [redacted] which letter said that he was now "living" in Albuquerque and had transferred his induction proceedings there. His address was again set forth as in care of [redacted] [redacted], Albuquerque.

This above-mentioned letter quoted [redacted] as saying "I will continue to live here until my induction is scheduled, however, I will continue to receive mail at this address in Los Angeles: [redacted] Drive, Los Angeles, California".

The Selective Service file contains a letter dated August 8, 1968, to Local Board 98, from Attorney WILLIAM G. SMITH of the Margolis and Mc Ternan Law Firm, which reported that SMITH had been retained by [redacted] SMITH wrote that his client claims to have one or more disqualifying conditions listed in Army Regulation 40-501, Section 1628. SMITH requested that [redacted] be interviewed by the medical advisor of the Local Board.

This above-mentioned letter by SMITH said nothing about the whereabouts or address of [redacted]

On August 12, 1968, Local Board 98, sent [redacted] a letter in care of [redacted] in Albuquerque telling [redacted] that AFEES had the final say over a medical advisor, and this letter instructed [redacted] to take any new medical evidence he had to AFEES in Albuquerque on the date of induction.

On August 21, 1968, [redacted] was ordered to report for induction at AFEES in Albuquerque on September 9, 1968. The file next contains a letter dated August 26, 1968, from Attorney SMITH to Surgeon General SGALITZER reporting that [redacted] had been under "extensive psychiatric care and has been hospitalized twice for psychiatric conditions in the last year". This letter enclosed medical reports on [redacted] and requested he be afforded a new examination.

This above-mentioned letter related that since [redacted] was a minor, the attorney had been unable to obtain medical records verifying [redacted] alleged hospitalization. SMITH said he was informed that [redacted] had been in St. John's Hospital at Santa Monica, California, in December, 1967, and July, 1968, in the psychiatric ward. He asked SGALITZER's immediate intervention to determine if [redacted] was medically acceptable for military service.

The file reflects that on September 9, 1968, [redacted] was rejected by AFEES in Albuquerque on psychiatric grounds and was classified 1-Y on the same date.

This file reflects that [redacted] is a white male, born [redacted] at Los Angeles, California, 6' tall, 150 pounds, brown hair, and brown eyes. [redacted] was interviewed by me on February 25 1969. The following history was elicited.

[redacted] presents the following complaints:
(1) Uncontrollable anger. His front tooth was knocked out in a recent fight He also states that he loses his temper easily over small matters.
(2) He constantly feels out of place. He states "People are always watching me." His paranoia is intensified by the use of hallucinogenic drugs. While driving down a street he states that he will suddenly get afraid, pull over and ask someone else in the car to drive.
(3) Depression with suicidal ideation. When I asked him if he had ever made a suicide attempt he said "Yes, last night (with a smile) I tried to take an over-dose of Heroin."

[redacted] has used a variety of drugs including LSD. He states that he has taken LSD 400-500 times. As a result he has become "more forgetful", "too sensitive," and has experienced visual distortions. In addition to using LSD [redacted] has taken barbiturates, stimulants and occasionally Heroin. When living in San Francisco he took Methedrine intravenously for about six months. His weight went from 180-pounds to 125-pounds.

[redacted] is currently a student at Long Beach City College. He is a high school ~~for truancy~~. He is currently living with his girl friend. However, in the last two years he has lived in many many different places.

The mental status examination reveals a 20-year old long haired hippie. His thinking was vague and illogical. His affect was characterized by inappropriate euphoria. (see above). There was no evidence of delusions or hallucinations. He was oriented X3. His memory for the recent and remote past was intact. His judgment and insight were somewhat impaired.

DIAGNOSTIC IMPRESSION:
(1) Schizophrenia, latent type #295.5
(2) Drug dependence (hallucinogens, barbiturates, stimulants)

RECOMMENDATIONS:
[redacted] is suffering from a severe emotional disorder and requires longed psychotherapy. Under conditions of stress he may decompensate and requ psychiatric hospitalization.

Very truly yours

Dear Dr. Ouchi:

[redacted] age 23, was seen in orthopedic consultation on 12-17-68. He is a student who has been having back problems since age 7 or 8. At that time, because of back pain, his back was x-rayed and an abnormality in the lower lumbar region was found. He has not worn a back brace. However, because of back pain, he saw Dr. H. Ellman in August of 1968; x-rays of his back were made and exercises prescribed. At any time he attempts to do heavy work, his back bothers him. His pain is central; it does not radiate. Coughing causes pain. He is unable to do any heavy lifting or repetitive bending.

In the past he has had a tonsillectomy. He has had a fractured left arm. He denies allergies. His general health has been good.

On physical examination his gait was normal. Heel and toe walking, normal. He bent forward to touch the floor. There was some slight step-off at the lumbosacral junction and there was a slight scoliosis with prominence of the right paravertebral musculature. Reflexes in the lower extremities were intact.

Measurements	Right	Left
Leg length	36 inches	36
Calf	14 5/8	14 3/4
Thigh	19 1/2	20

There was slight hyperaesthesia in the lateral right leg and foot. The FABER test was negative. Straight leg raising, 90 degrees. There was tenderness to palpation over the lumbosacral junction.

Review of x-rays from the office of Dr. Ellman made in August, 1968, indlucing antero-posterior, lateral, and oblique views of the lumbar spine; there is a first degree spondylolisthesis with slipping of L-5 on S-1, and bilateral defect in the pars interarticularis.

[redacted] was advised that he has a symptomatic spondylolisthesis with a history of back pain dating back to his childhood. Such a disease limits one to doing work which is less than heavy, requiring lifting no more than 45 pounds, and no repetitive bending

FOIA(b)(7) - (C)

Dear Col. Sgalitzer:

The above named registrant has consulted me regarding his pending induction into the armed forces and has related to me numerous instances of drug abuse as well as certain other emotional problems which might have a bearing on his fitness and ability to serve our country. Consequently I referred him to a psychiatrist for an evaluation and report, and the reports of doctors Thomas Ciesla, Alex Caldwell and Bernard Brickman are enclosed for your consideration.

On behalf of [redacted] I would very much appreciate it if you would review the enclosed reports and order a re-evaluation examination so that the registrant's psychiatric ability to serve our country might be properly decided. [redacted] was ordered for induction on April 22, 1969 in Cleveland, Ohio, but as he is currently residing in Albuquerque, New Mexico, he has not yet received a date for his induction in that city. [redacted] was last examined in June of 1968 at a pre-induction physical.

Thank you very much for your early attention to this request, and I remain

PSYCHIATRIC HISTORY AND EVALUATION

IDENTIFYING DATA: The patient is a 20 year old, single, Caucasian male living at [redacted] California 90028. He is currently unemployed (a musician) who lives on the proceeds of occasional gifts from his parents and money, no more than $150.00 in the last year, made playing with a group called [redacted]

HISTORY:

Chief Complaint: "I have a fear of the people I live with."

Present Illness: The patient states that he was in good psychiatric health up until approximately two years ago. At that time he was "very very strong" on marijuana and had a series of extremely painful experiences. He thought his heart was stopping and that he was going to die and experienced terror lasting approximately five or six hours. He repeated that experience the very next night, after taking some amphetamines and has not used drugs of any sort since that time. He has been troubled off and on since then and more severe in the recent past, by physical ailments, sharp pains in his abdomen and chest, which appear to come and go capriciously but which terrify the patient and convince him that he is about to die. "I had this pain in the stomach. I almost passed out. I thought I was dying." "This happened to me alot." In addition, during this same period of time, he has found himself becoming more and more nervous and tense and has had some difficulty sleeping. He is plagued by hypnogogic phenomena which terrify him as he attempts to fall asleep. At that time he again experiences the feeling that he is about to die. For the past several months he has been living with a number of people his own age in a Hollywood apartment. He is terrified that they will [illegible] LSD or other dreadful substance into his food and this is an almost incapacitating preoccupation. He will not now touch any food that has been handled by anyone else, must do the cooking for the group and will not eat out of a previously opened milk container. He saw a psychiatrist on one previous occasion in the recent past.

Past History: The patient is the middle of three siblings in a working-class Cleveland, Ohio family in which the father is a salesman-serviceman for a machinery company. His oldest sister, one year his senior, is "getting straight A's at college" and his youngest sister, by five years, is at home attending high school. The patient's description of his family was bland in the extreme and it was difficult to obtain any factual information about them at all.

He left high school at the age of 17 or 18 in the 10th grade when some of his other friends graduated. At that point he was failing in most of his grades and he decided the best thing for him to do was to quit. He held several jobs after that, moving away from home, but he began to find himself progressively more isolated from people. Approximately two years ago he came to California with some friends of his from Cleveland and has made a very marginal adjustment here since then. In December of 1968 the last of his friends went back home and since that time the patient has noted a marked increase in his symptoms, particularly the paranoid ideas about his roommates poisoning his food.

The patient states he has never been arrested and has not used any drugs for the past year. He has no very close friends and is isolated socially, as he has been for most of his life. He has only occasionally thought of suicide but at one point found himself standing in the middle of the room with a knife in his hand wondering whether he should plunge it into his heart, so he "didn't have to lay there for awhile," whatever that meant. His notions about the Army are vague in the extreme except that he wouldn't care to go into the Army. "I don't think I'd get along with those people." The patient had no specific objections to Army life except the vague fear mentioned above.

FOIA(b)(6)
FOIA(b)(7) - (C)

Mental Status Examination: The patient was a well nourished, well developed, 20 year old, Caucasian male who appears to be about his stated age. He had long, sandy hair coming down in curls over his shoulders and partially down his chest and back. In addition, he wore a mustache and goatee. He exhibited innumerable facial tics and fidgeted a great deal in the chair. [redacted] was dressed in cowboy boots and plaid pants which were ripped at both knees. His stream of speech was fragmented in the extreme. He blocked occasionally, was tangential, circumstantial and in all exhibited a moderate degree of associative looseness. He related in a markedly distant and fuzzy fashion. His mood was difficult to assess but his affect was quite flat throughout the entire interview. Historically he gave instances of hypnogogic phenomena and on at least one occasion hallucinations. At that time he heard a voice echoing in his head but was sure it was coming from outside of him. He has had a number of somatic complaints to the point of hypochondriasis. The content of his thought was extremely vague and in addition to straightforward historical information contained some delusional material about his roommates attempting to poison him. He was quite preoccupied about the state of his health.

His sensorium was reasonably intact. He was correctly oriented in all spheres. His attention was easily gained but tended to wander. Recall, recent and remote memory were intact. Serial 7's were handled fairly rapidly and accurately and he had a sufficient grasp of current world events. In all, he appeared to be functioning in an average intelligence range. Proverbs were handled abstractly and correctly. The patient demonstrated only superficial insight into his condition in that he was aware that something was wrong. His judgment would seem to be moderately impaired.

DIAGNOSTIC IMPRESSION: (1) SCHIZOPHRENIC REACTION, paranoid type.

DISCUSSION: This is an obviously disturbed young man whose current clinical condtion suggests that he may be in need of hospitalization. An MMPI, performed on April 28, 1969 by Dr. Alex Caldwell, is included with this report and it substantiates his clinical impression. Quoting Dr. Caldwell, "Schizo-affective and psychotic depressive diagnoses are common with this pattern." "He tests as urgently needing external support, either as hospital treatment or continuous and affective family care."

The report from Dr. Bernard Brickman, dated April 21, 1969, included with this report, is further evidence of the severity of this man's illness. Dr. Brickman's impression was "Schizophrenia, paranoid type, chronic." There is no doubt that this is a seriously disturbed young man. I urgently recommended to him that he return home and obtain psychiatric treatment if possible. The prospect of his induction into the Armed Services is appalling.

Yours truly,

Thomas K. Ciesla, M.D.

REFERRED BY: Thomas K. Ciesla, M.D.

DATE TESTED: April 28, 1969

TEST ADMINISTERED: MMPI

Test Taking Attitude

He appears to have been quite open, candid, and self-critical in taking the MMPI. He made a moderate number of unusual responses to the test; these were most likely due to some overstatement and exaggeration of his disturbance. Although some of the scores could be overly elevated, the pattern is probably valid.

Symptoms and Personality Characteristics

The pattern is often seen with an acute identity crisis including severe immaturity and confusion about his current and future goals. The profile indicates a serious vulnerability to a psychotic decompensation if not currently such a reaction. Some patients with this pattern have shown seriously disturbed emotions, delusions, and hallucinations. He tests as markedly fearful of emotional closeness with severe frustrations in his close relationships. He is apt to have many ways of keeping others at a distance. Chronic worrying, nervousness, fears, and anxieties are apt to have become overwhelming. He appears markedly self-preoccupied and prone to ruminate about his feelingsof inferiority and inadequacy and about various threats to his security. Depression, apathy, loss of drive, and feelings of hopelessness are indicated. Markedly shy and introverted, he tests as very lacking in poise and assurance, in social self-confidence, and in outgoing emotional response. He tests as currently overwhelmed and severely decompensated.

Best possible image.

The profile is often associated with physical symptoms that are secondary to the anxiety and expressive of the current conflicts. Conversion-like symbolizations of unreleased resentments, tensions, and aggressive impulses are particularly common. In similar cases such symptoms have also included dizziness, fainting, anorexia, muscle weakness, and paralyses. Disturbances of sleep are common with this pattern. In addition, the numerous physical preoccupations he expressed on the test suggest a wide variety of chronic physical complaints lacking a sufficient organic basis. Gastrointestinal distress, headache, and fatigue would typical, as would be concern about poor or declining health and overreactions to minor physical dysfunctions. Lacking in self-acceptance, he tests as immaturely emotional with many fears and inhibitions. His dependency needs and poor tolerance for unpleasantness and turmoil would interfere with his self-assertiveness and give him difficulties in handling acting out by family members.

Lacking in solid, longterm goals, his tolerance of frustrations and ability to handle pressure and demands on him appears poor. Underneath his self-blame or when less depressed, he appears prone to rationalize resentments and to feel that his difficulties cannot really be relieved unless other people or circumstances change. The test indicates that others would see him as passive-aggressive and as sometimes undependable and impulsive. He tests as internally pressured; periods of restless activity would not be atypical. Feelings of inferiority and hopelessness are apt to partly cover over the intensity of past hurt feelings and current anger and resentment. Oversensitive, distrustful of the motives of others, and prone to feel put upon, he tests as passively resistant and reluctant to become involved in things.

He obtained the so-called "burnt child" pattern type for which the phrase, "The burnt child fears the fire," has aptly characterized the chronic fears of emotional closeness and involvement. Typical histories with this profile often include poor educational achievement relative to intelligence. He prone to marry impulsively after a very brief courtship. However, he could then transfer his maternal dependency conflicts into the marriage. His balance of interests is relatively feminine, such as verbal, cultural, and esthetic pursuits along with some disinterest in or rejection of masculine activities and self-doubts about male adequacy.

Diagnostic Impression

Schizo-affective and psychotic depressive diagnoses are common with this pattern.

Treatment Considerations

The profile suggests a mild suicide risk. He tests as urgently needing external supports, either as hospital treatment or continuous and effective family are. Tranquilizers and energizers have frequently been used with

Best possible image.

similar patients. In some similar cases the intensity of the internal upheaval necessitated a careful following of the use and dosage of the tranquili and antidepressive medications prescribed. However, he tests as mildly vulnerable to difficulties in managing drugs. A minority of patients with this pattern have shown histories of cyclothymic fluctuations. Somatic concerns could prove borderline to overtly delusional. If not already expressed in the interview, the therapist may wish to follow up the patient's "true" responses to the following Items:

(121) "I believe I am being plotted against."

(200) "There are persons who are trying to steal my thoughts and ideas."

Difficulties in trusting and in relating emotionally are likely to seriously handicap his response to treatment. Apathy and longterm schizoid trends would be prognostically negative. He tests as prone to get others to tell him what to do, but ambivalent if not negative to decisions made for him by someone else. Although responsibility for decisions should be gently but firmly encouraged, he is apt to need extensive support in order to take initiative and mobilize his energies. He tests as prone to manipulate psychotherapeutic treatment or to passively manipulate others around it.

In many similar cases the precipitating circumstances involved increasing withdrawal and personal "binds" that were partly due to the patients' ambivalenc and to avoidance of decisions and responsibility. Although he may focus on sexual problems, the underlying confusions in identity appear to be the basic disturbance. Difficulties in assertiveness toward women is likely to be an important area in treatment. He may require extended contact to let go of odd ideas and negative self-identifications. The ego weakness suggests planning future work and family situations that minimize the demands and stresses him. His awareness of the intensity of his hurt and angry feelings and of the indirectness of his ways of expressing them appears severely distorted. The profile recommends a relatively cautious and "here-now" handling of his anger since deeper interpretations could be disorganizing of his controls. Discovery of his personal ways of keeping others at a distance--perhaps especially as he uses them on the therapist--is apt to be of direct benefit in treatment.

Thank you for this referral.

TO WHOM IT MAY CONCERN:

RE: [redacted]

FOIA(b)(6)
FOIA(b)(7) - (C)

The above mentioned person was interviewed and examined by me on two separate occasions. The first time was September 5, 1968, and the second time, March 25, 1969.

Presenting Circumstances and Chief Complaints

On the occasion of the first visit September, 1968, [redacted] appeared in my office being referred by a friend of his with the following complaints: For several months he found himself unable to function normally and to be gainfully employed. He was living with a couple and he believed himself to be the object of some kind of conspiracy aimed at hurting him or killing him. He believed that the food that was available at his home was being poisoned and that certain of his friends were getting together in order to put him under the influence of some mind-changing drug to get him to do things he was totally unwilling to do. He was in a state of utter chaotic anxiety and confusion and was also complaining of insomnia. At that time, he was hearing voices as well.

Mental status examination at that point revealed the following: A rather disheveled, perplexed, confused young man with long hair and sloppy clothes. He related to me aloofly and distantly. His affect was markedly flattened and inappropriate. His speech showed moderate loosening of associations with evidence of severe blocking at times, nonsequetors and a tendency toward tangentiality. His thought content was filled with paranoid delusions of persecution and some delusions of grandeur. There was evidence of auditory hallucinations by history as well as a strong suspicion that he was actively hallucinating during the interview. He denied being under the influence of any drugs at that time, which denial appeared fairly well confirmed by the fact that he showed no evidence of disorientation as the time, place or person, and no evidence of memory deficit. His insight as to the present severe emotional difficulties seems to be lacking.

My diagnositic impression at that time was -- schizophrenia, paranoid type, in acute exacerbation. Since he was unable to afford private psychiatric care at that time, I recommended that he present himself immediately to the Los Angeles General Hospital, Psychiatric Unit, in order to be evaluated for immediate admission as I felt his state of confusion and disorganization made it near impossible for him to function adequately and to receive out-patient treatment.

My next contact with [redacted] was on March 25, 1969. At that time he, again, corroborated the past history he told me but this time he was better organized and to give me a more coherent history. He reported that two years ago he "freaked out" becoming paranoid, suspicious, was

afraid to eat food lying around. He reported severe free floating anxiety for the past one year. In addition, he reported fears of dying and delusions of dying.

At the present time, he plays in a group of musicians and is able to support himself by being able to play the guitar.

Mental Status examination at this time reveals the following: His appearance is essentially unchanged. He is somewhat more organized in his behavior and verbal productions--although moderate loosening of associations persist. His affect remains blunted and he continues to have delusions of dying and delusions of persecution. His auditory hallucinator phenomena are less troublesome at the present time--connected mostly with hearing high or low sounds. He reports frequent homosexual fantasies but denies homosexual relationships.

My current diagnostic impression is essentially unchanged: Schizophrenia, paranoid type chronic. At the present time he appears to b in a state of fair compensation.

I understand that he is currently faced with the possibility of induction into the Armed Forces. There is absolutely no doubt in my mind as to his extreme unsuitability for military service. Were he to be inducted, there is no question in my mind but that he would decompensate psychologically under the stress of military training and become openly an overtly psychotic and paranoid.

I hope this information will be carefully considered prior to any attempts of inducting this very disturbed man.

The Selective Service file of [redacted] was reviewed June 20, 1969, at Los Angeles, California by SA JOHN M. NICKOLS. The following information was obtained from this review:

[redacted] was classified 1-A by Local Board 83, in Sun Valley, California, June 20, 1967. On September 5, 1967, he applied for a conscientious objector status, which was denied. On December 14, 1967, he had an interview with a government appeals agent regarding a conscientious objector claim, and on January 3, 1968, he was still classified 1-A.

On February 1, 1968, he received another appointment with a government appeals agent, and he did not appear for this appointment. On March 22, 1968, he personally appeared at the Local Board and was rescheduled to see another appeals agent. He did not appear for this appointment on April 2, 1968.

He had made a personal appearance on June 20, 1968, for unspecified purposes (apparently to air his conscientious objector claim for Local Board members). On July 2, 1968, this claim was rejected, and he was again classified 1-A.

On July 26, 1968, he furnished a letter to Local Board 83 in Sun Valley, claiming he was at that time residing at 9621 North 4th Street, Albuquerque, New Mexico, for an indefinite period of time. He stated that his mailing address would continue to be [redacted] North Hollywood, California, and he asked that his Selective Service file be sent to the New Mexico State Appeal Board for review.

At an earlier unknown time he had appeared requesting another interview with a government appeals agent. Such an interview was set up for August 15, 1968, in Sun Valley. A letter to the Local Board in Sun Valley postmarked August 12, 1968, at Albuquerque from [redacted] advised he was to far from Sun Valley to see a government agent there and he asked to see a government agent in Albuquerque. He also corrected his New Mexico address to read [redacted] New Mexico. He requested

FOIA(b)(6)
FOIA(b)(7) - (C)

that Selective Service mail continue to be sent to [redacted] in North Hollywood. The file then contains a letter to the Sun Valley Board dated August 21, 1968, from Attorney WILLIAM SMITH saying he represented [redacted] and requested [redacted] be granted an interview with a Local Board medical advisor. This letter made no mention of [redacted] whereabouts or location in Albuquerque.

The file then contained a letter postmarked August 24, 1968, at Albuquerque to the Local Board from [redacted] stated he was confirming his phone call to Sun Valley from Albuquerque on August 22, 1968, and he wished to know if his physical examination was going to be changed to Albuquerque.

Local Board 83 sent a letter to [redacted] September 5, 1968, to the Albuquerque address he had furnished, and this letter was returned marked no such number.

The file shows nothing about any physical examination, and the last entry contained is a letter dated September 27, 1969, from Surgeon General SGALITZER to the effect that [redacted] was medically disqualified.

The file contains a form executed by [redacted] January 10, 1969, reporting that his new address was again [redacted] Avenue, North Hollywood.

The following descriptive data was obtained on [redacted]

Birth Data	[redacted]
Social Security Number	
Height	6'
Weight	165 pounds (1964)
Hair	Brown
Eyes	Brown

Person Knowing Whereabouts [redacted]
Altadena, California

Father [redacted]

The file reflects that the registrant is a graduate of UCLA. It was also noted that he is a member of the Peace and Freedom Party.

[redacted] applied for a conscientious objector status July 2, 1968, but this appeal was denied in a hearing before the Local Board on that date.

FOIA(b)(6)
FOIA(b)(7) - (C)

[redacted] is registered with Local Board 98, 1301 Westwood Boulevard, Los Angeles, California. On February 9, 1966, he was classified 1-Y because he was on probation from the Department of Motor Vehicles, and he was later given a 2-S classification as a student.

On February 9, 1968, he was classified 1-A and on April 10, 1968, he was ordered to report for physical examination at Armed Forces Entrance and Examining Station (AFEES) in Los Angeles, which examination was to be conducted on May 1, 1968. On May 1, 1968, [redacted] was notified that he was acceptable for military service and as of October 9, 1968, he was still classified 1-A.

The file contains a letter dated January 7, 1969, sent to the board by registrant, in which the registrant advised that he was attending college and "had six units" at this time in the Fall Semester. He related that he had been re-classified 1-A in October, 1968, and continued, "I was advised to make an appeal late in 30-day period". He said that on the 25th day of his appeal he had been given five days in jail on traffic conviction in Beverly Hills Municipal Court. He said he had received a notice on December 31, 1968, to report for induction on January 14,1969. It is noted in regards to registrant's claim, that as of January, 1969, he was carrying six hours of college work, his Selective Service file contains a card dated October 6,1968, reflecting that [redacted] had dropped all college courses.

FOIA(b)(6)
FOIA(b)(7) - (C)

On January 13, 1969, Local Board sent a letter to [redacted] advising that his induction had not been postponed and he should report for this induction in Los Angeles January 14, 1969.

On January 13, 1969, [redacted] appeared in person at Local Board 98, Los Angeles, and requested a postponement of his induction, which request was denied.

The file next contains Selective Service Form 230, dated January 14, 1969, requesting a transfer of induction for [redacted] from Los Angeles, to Local Board Number 1, Albuquerque. [redacted] was reported as "living and working in Albuquerque, New Mexico". He furnished his address as in care of [redacted] [redacted] Albuquerque, New Mexico.

TO WHOM IT MAY CONCERN:

[redacted] is a 23-year-old man who was examined at this office on October 11, 1968.

The patient states that he has had sore, flat feet for just about as long as he can remember. At one time in his life, he wore corrective shoes with special arch supports. He states that his feet get sore and tired. This occurs with activities, especially with prolonged walking. Associated with this are occasional cramps which occur almost once a month and are primarily in the right calf. The aching soreness, he indicates, occurs about the long arch in the instep of both feet. With continuous activities, such as prolonged walking, he would have to stop in order to rest his feet.

There is a history of "sinus trouble". At one time, this was quite severe. This was while living in Omaha in the early 1960's. He was under intensive treatment for about three years with periodic mechanical drainage and medication. These symptoms would consist of posterior pharyngeal drainage, obstruction, and recurrent severe frontal headaches. On leaving Omaha, he spent several years in Kansas City (1963 to 1967). During those years, he would have recurrent episodes of sinusitis. He moved to this city approximately one year ago and during this past year has had relatively few symptoms in this regard.

PAST HISTORY:

Other than the above, recalls measels and mumps, no other history of serious disease. At the age of nineteen, he sustained a laceration of the chin and the only other surgery was a tonsillectomy at the age of three.

FAMILY HISTORY:

Mother and father are both living and well in late forties or early fifties. There is only one sibling, a brother age twenty, living and well. There is no history of familial diseases. However, a paternal grandmother and a maternal grandfather both died of cancer.

General:	Smokes about three cigars a day and uses occasional alcohol, at least daily. Uses no other drugs. There is no history of recurrent fevers, soaking night sweats, drug allergies, etc.
Head and Neck:	Recurrent frontal headaches. He has had two severe headaches in the last several days. For the history of sinusitis, nasal problems, see present illness above. There are no particular symptoms regarding the hearing. Has a stigmatism.
Cardiovascular Respiratory:	No particular symptoms applicable, other than occasional episodes of palpitation.
Gastrointestinal:	The appetite has been quite poor in the past two days. Other than this, there is no particular history of abdominal pain, vomiting, hematemesis, melena, etc.
Genitourinary:	There are no symptoms applicable.
Neuromusculoskeletal:	Has fainted at least three times in his life. No striking antecedent event. No history of frank grand mal type seizures.
Psychosocial:	Had finished high school and had one year at a university after that. Following that, had four years at Kansas City Art Institute and now is on a Ford Foundation grant studying lithography in this city. Is married now, five months, for the first time. There are no children. Tends to worry a great deal and sometimes thinks he may be overly nervous.

PHYSICAL EXAMINATION:

Physical examination reveals a well-developed, well-nourished, young adult man in no acute distress. Height 5 feet 7-1/2 inches. Weight 144 pounds. Blood pressure 130/30. Pulse 68 and regular.

Head:

Normocephalic. Ear canals and tympanic membranes are clear. Pupils and pupillary reflexes are normal. Extraocular muscles intact. Fundoscopic examination negative. The nasal mucosa is slightly edematous. The oropharyngeal mucous membranes show a slight degree of lymphoid hyperplasia. The teeth are in repair.

Neck:

Chest:

There is a slight pectus excavatum. Lungs are clear to percussion and auscultation. On auscultation of the heart, P_2 is greater than A_2. There is a normal split of P_2. There are no murmurs. There is no cardiomegaly on percussion.

Abdomen:

Soft, flat, non-tender. Liver, kidneys and spleen not palpable. There are no palpable masses. Bowel sounds are normal.

Genitalia:

Adult circumcised male. Scrotum and scrotal contents are normal. No evidence of hernia.

Rectal:

External negative. Good sphincter tone. Prostate normal. No evidence of masses.

Back and Extremities:

No particular abnormalities of the back noted nor of the upper extremities. On examination of the lower extremities, there is evident bilateral tibial torsion with the knees in slight valgus and on weight bearing secondary pronated pes planus bilaterally.

IMPRESSION:

1. Recurrent sinusitis.
2. Bilateral tibial torsion with secondary pronated pes planus bilaterally.

I suspect that the sinus condition is on an atopic basis. There appears to be a dearth of the antigenic antecedent in this area since Mr. Rogers has done comparatively well in Los Angeles. At the present time, no treatment is indicated but prior to any prominent moves this condition would have to be considered. In regard to the condition of the feet, correction at this time is not indicated inasmuch as he has by vocation limited the extent of walking that he does. I suspect that should this be increased he would be considerably hampered and correction would be advisable at that time.

Sincerely yours,

To Whom It May Concern re: [redacted]

Dear Sirs:

[redacted] was seen in psychiatric consultation on October 30, 1968. He is a short, thin, fair-haired young man who moves about very quietly. He is married and has no children.

[redacted] has a very unique way of looking at the world. He is afraid of interaction with people and avoids such situations if at all possible. He thinks it is odd that his artistic and sensitive mother supports his own artistic interests, and feels that it would be more in accordance with the norm if she did not do so. He has never been interested in sports and therefore has never been able to relate to his father. Because of this poor relationship with his father and an increased leaning toward his mother, he has never really developed a strong masculine sense regarding himself. [redacted] often feels that people are watching him or are talking about him. He used to be a heavy drinker and experienced incidences of mild to extreme paranoia both while under the influence of alcohol and without it. He does not take drugs but continues to drink, ranging from a mild to a heavy use of alcohol.

When talking to [redacted] he seems to be very distant and unresponsive. He speaks in a low, monotone voice with very little affect. He is very indifferent about the things he says, and has a great deal of trouble keeping to the point. His ideas flow from one topic to another easliy, and conversation with him always seems to have a peripheral character to it.

This young man is very much afraid of aggressiveness. He is sometimes angry with himself for his lack of assertiveness, but doubts that he knows how to be properly aggressive. He is a very childish sort of person and can barely relate to other people, and when he does they are the sort who demand very little from him. He has a long history of not being to compete with other adolescents and always remains very distant from them.

My impression is that [redacted] has a very severe schizoid personality with the possibility of decomposition to frankly psychotic states. If he were placed in a restrictive authoritarian structure such as the army with the intense closeness of others and the great phisical and emotional demands placed upon him, I'm afraid that he would become openly psychotic. This young man cannot stand stress. It would be inadvisable for him to be inducted into the army, because the government would soon have the burden of his psychiatric care. On the basis of his severly schizoid personality, I recommend that [redacted] be considered ineligible for military service. If I can be of any further help in the matter please feel free to contact me. Thank you very much.

Sincerely,

Psychological Evaluation

[redacted] is a blond, blue eyed young man of smaller than average size. He is a college graduate with a bachelor's degree in fine arts, and has been married since May of 1968. He works at making lithographs.

Throughout his life he has moved with his parents a number of times. The father worked at a number of different things from meat processing to selling insurance. Finally he settled on buying a franchise for a donut chain. The family lived in Massachusetts, Iowa, Mobile Alabama, Chicago Illinois, and Omaha Nebraska. He attended College in Kansas City. The relationships between [redacted] and his father was never very good. The father was very interested in athletic sports and games, whereas [redacted] was not. [redacted] has a brother 20 years old, and throughout this brother has liked sports, so he and the father talk a lot about that, attend games, and so on, leaving [redacted] on the side so to speak. The father was not brutal in discipline, but did beat the boys. He has a strong personal relationship with his mother who encouraged him to be an artist. The father did not actively oppose this. In school [redacted] found he could not "do" math, but did well in subjects he likes such as English literature. He made very few friends. He seems tohave difficulty in remembering much about his elementary school years. When asked if he felt it was detrimental to have moved a great deal he couldn't think whether it had made a difference or not. He has had no major illnesses or surgeries. He was thrown from a moving car twice, both times in parade activities when the drivers swerved. He did not suffer any lasting injuries. He drinks alcohol heavily - as much as possible. He first becomes hyperactive when drinking, then passes out. He says a nurse told him it is not harmful to drink a pint of whiskey a day, and he doesn't drink that much. He often drinks several martinis before dinner. He doesn't take tranquilizers. His employers make him and his fellow workers sign a pledge not to possess marijuana, and the y will be fired if they do. He is keeping this pledge. He has never been in psychotherapy, nor taken LSD.

Evaluative Procedures Used:

Rorschach
Sentence Completion Items
IPAT Anxiety Scale
WIAS Similiarities Subscale
Minnesota Multiphasic Personality Inventory

In interviewing this young man he seemed apathetic, depressed, rather unresponsive. He is working hard and having a difficult time financially. His wife is not working, but he feels that the marriage is "O.K. I think." Since he did not exhibit any so "spark" I thought perhaps his thinking processes were affected in some way, but

19 NOV 68
BUXTON, M.C.

after administering the similarities it was ascertained that he has superior intellect.

In responding to the personality inventory he answered truthfully and validly, and did not try to make himself look better or worse than he is. He seems to lack ego defensiveness, and is very depressed. The psychotic scales of psychosthenia (obsessions, compulsions and phobias) and of schizophrenia were elevated into the pathological range. The anxiety scale showed him to be more anxious than 99 persons out of every 100, thus placing him in the extremely pathological range. The anxiety seems to be stemming from weak ego structure, lack of self integration, guilt, and pressures from primary processes.

[redacted] interests were expressed as follows: He and his mother got along, and she takes an interest in him, but sometimes she is too outgoing for him. Sometimes she doesn't understand his artistic personality. He thinks his father is good but he works too hard, and should do more of what he wants to do. He thinks the family as a unit is probablynot normal. His childhood memories are mostly blocked, but he does remember vividly having to put up with others wanting to fight when he didn't want to, and moving frequently. He feels his relationships with women are normal, but friends and colleagues think he is hard to get along with. Supervisors do not understand or like his methods.

His greatest fear is of guns. His brother used to have them a lot and he never wanted anything to do with them. He fears being killed, and doesn't like the idea of killing others. He is also afraid of making big decisions. His fears cause him to withdraw. He feels guilty about calling his mother bad names one time when he was angry at her, feels it was a mistake to not get things done when he should have, and can't forget the unfriendly people he was with in high school. The future looks bleak. He would like to become a good artist and be able to survive on the income from the art work.

In responding to the Rorschach situation, he shows that he represses affect to an extreme degree. This includes both aggressiveness and assertiveness, as well as positive affect. Furthermore, he does not seem to be able to integrate actions with appropriate feelings. He is rather infantile, and can be the passive recipient of affection from othe rs. His orientation is more female than male, and he rejects the usual male image of muscular aggressiveness. He turns stimuli in this direction into static concepts such as "coat of arms" or "state seal."

This young man is very interverted, avoids close relationships with others, is unable to directly express much aggressiveness or hostility. He has a long history of avoidance of competition, emotional detatchment, and unsociability. His more female personality and his artistic role seem concomittant with his shyness, obedience, and withdrawal. This personality pattern is often based on latent schizpohrenia, which did show up strongly in his personality inventory. Primary diagnosis should be schizoid personality, with secondary latent schizophrenia. Placing him in the stressful situation of closeness to others, aggressness, and power structure of the military would result in an open psychotic break.

Dear Sirs:

[redacted] consulted me for psychiatric evaluation on March
11, 1969. He is a tall, sloppily dressed young man, who talks slowly with
little emotion in his voice. [redacted] describes himself as a gentle person,
a good person who cannot put up with being told what to do.
[redacted] sees his mother as a gentle but nervous woman, always concerned
with her children's problems. He feels close to her and seems not to resent
the intrusions she makes on his life. His father is a very firm, hard-work-
ing man, who is very distant from his son. [redacted] says, " There seems to be
a wall between us, he can't understand what I want." He seems to passively
accept his father's rejecting behaviour.

In high school [redacted] had a great deal of trouble. He went to a Roman
Catholic parochial school. He refused to do much of what they requested and

On July 10, 1969, at the Field Attorney's Office, Southern California Headquarters, Selective Service System, Los Angeles, California, records of [redacted] were reviewed by SA JOHN M. NICKOLS. Results of this review are set forth as follows:

[redacted] registered with Local Board 96, Los Angeles, California, June 23, 1966. He was described as white male, [redacted] [redacted] brown eyes and brown hair, 5'11" tall, and weighs 155 pounds. He listed as the person who would always know his address, [redacted] S.E., Albuquerque, New Mexico. In July, 1967, he listed as the person always knowing his address, [redacted] [redacted] Boulder, Colorado.

At the time of registration, [redacted] informed Local Board 96 that he was emotionally disturbed and was under psychiatric care.

In June, 1966, he furnished his own permanent address as [redacted] Boulder, Colorado. He listed at that time the following relatives residing at [redacted], Boulder, Colorado:

Father
Mother
Brother

[redacted]

[redacted] was classified 1A by Local Board 96 March 14, 1967, and he twice requested appointments with Government Appeals Agents, and he did not keep either appointment.

On December 11, 1967, he was temporarily rejected for unspecified reason. On October 30, 1968, he was ordered to report for physical examination at Armed Forces Entrance and Examining Station (AFEES), Los Angeles, which examination was to take place

OIA(b)(6)

November 20,1968. Results of this examination are not shown in the file, but on December 3,1968, a statement of acceptability was sent [redacted] informing him that he was found suitable for military service.

On January 31,1969, a notice of his 1A Classification was sent [redacted] and on February 26,1969, he was ordered to report to AFEES in Los Angeles for further processing to be conducted March 5,1969. This letter was sent to [redacted] Los Angeles, the current address furnished for [redacted] at that time.

On February 27, 1969, Local Board 96 received a letter from [redacted] stating that effective immediately he would be receiving mail and residing periodically [redacted] Albuquerque, New Mexico. This same board received a letter on the following date in which [redacted] requested an interview with a Government Appeals Agent.

There is nothing in the Selective Service file from that date until March 14, 1969. A letter dated March 14, 1969, to HOWARD SACKS of the Margolis, and Mc Ternan Law Firm in Los Angeles from Surgeon General of the Army, Colonel SGALITZER, appears next in the file. This letter was apparently written by SGALITZER in reply to a letter fromSACKS,and it informed SACKS that AFEES in Albuquerque had been unable to locate [redacted] and further informed SACKS that [redacted] had not appeared at AFEES in Los Angeles for further processing on March 5,1969.

The next thing in the Selective Service file is the result of [redacted] physical examination by AFEES, Albuquerque, on March 20,1969, in which he was found unacceptable. This medical record noted that Dr. ROSS, a psychiatrist, recommended [redacted] as being unsuitable for military service based on his diagnosis of Schizophrenia-Chronic, undifferentiated type.

The file contains a letter dated 4/8/69, from SGALITZER, to Attorney SACKS, informing SACKS of [redacted] unacceptability.

[redacted] was interviewed by me on February 12 1969. The following history was elicited.

[redacted] has been treated by a Psychotherapist, Dr. James Palmer, for the past two and one-half years. According to a letter from Dr. Palmer, Mr. [redacted] "Was so depressed and emotionally confused that despite the fact that he is an intellectually brilliant youth, he was failing his senior year of high school." Prior to his treatment by Dr. Palmer, [redacted] was seen by two therapists. When [redacted] was in Primary school he was referred for therapy because he couldn't get along with the other children. When he was in high school he was seen for a period of approximately a year by Dr. Koenig, M. D., because [redacted] had "No friends." and was "depressed."

Upon graduation from high school [redacted] went to UCLA but dropped out during the middle of the second semester due to a suicide attempt in April 1967. He made the suicide attempt because his girl friend left him and became involved with his best male friend. He states that he took a whole bottle of sleeping pills and was hospitalized at NPI for one day. He also states that he had made a previous suicide attempt by taking an over dose of Aspirin.

[redacted] is bixexual. He has overt sexual relationships with both sexes. He says that he has had homosexual feelings for many years but has only acted them out within the past year. One of his homosexual partners is his best friend referred to in the previous paragraph.

The mental status examination revealed a 20-year old white male whose thinking is illogical and vague. His affect is depressed. There is no evidence of delusions or hallucinations. He is oriented X3. His memory for the recent and remote past is intact. His judgment and insight are slightly impaired.

DIAGNOSTIC IMPRESSION:

(1) Sexual deviation (homosexuality) #302.0
(2) Schizophrenia, latent type #295.5

RECOMMENDATIONS:

[redacted] is suffering from a serious emotional disorder and requires prolonged psychotherapy. Under conditions of stress he may decompensate and make another suicide attempt or require psychiatric hospitalization.

Re: Brad Smith

Dear Sirs:

This twenty-year old youth has been in psychiatric treatment during the past two years. The problems that brought him to treatment were: first, a very poor social adjustment and second, an inability to function in school. He has very few or no friends. He prefers being by himself and may well be considered as a loner. He has described often going off for jaunts by himself into the hills, and how pleasant these trips are and how often he might find himself absorbed for hours observing the shapes of the pebbles by a stream or the shapes of the clouds in the sky.

At school, except for the early years, Brad has functioned poorly. Despite a good I.Q., it appears that he has difficulty in integrating material. He seems to see school as the accumulation of unrelated and irrelevant facts. It may be that this attitude is based on his fear of the teachers who he sees as authority figures and therefore to be feared.

In appearance, Brad is a pale, thin, poorly - developed young man of average height. His hair is long and wavy and he gives a rather effeminate impression. Likewise his attitude is withdrawn and depressed. Only with encouragement will he express himself and then his remarks show much naivité and often a lack of reality - testing. Likewise, judgement is impaired and faulty. This may be illustrated by two of his short-lived business adventures of the past year. One was to be a bread baking business and the other managing musical bands. His experience in both these fields were minimal and the results were, of course, disastrous.

There appears to be little ability to cope with any degree of pressure and in the past his way of dealing with an uncomfortable situation was to withdraw. There is also evidence of a moderate degree of depression.

The diagnostic impression is schizoid personality. It would seem to me that with the rigorous training and requirements of active military service the pressures created thereby might readily precipitate a complete emotional breakdown in this individual.

If I may furnish any further information, please let me know.

Very truly yours,

Erwyn L. Kirsten, M.D.

21. ROBERT BRUCE SUNDSTROM
    SSN 4-81-48-1330

LA
JSI/plf

On June 20, 1969, SA JAMES S. IRVING reviewed the Selective Service file of ROBERT BRUCE SUNDSTROM, Selective Service Number 4-81-48-1330, at the Office of the Field Attorney, Selective Service System, Los Angeles, California. SUNDSTROM was ordered for a physical examination at Los Angeles, California, on June 3, 1968. On June 20, 1968, he was found acceptable by the Armed Forces Examining and Entrance Station (AFEES), Los Angeles, California. On July 3, 1968, his physical examination papers were redirected to AFEES, Los Angeles, for re-evaluation. He was again found acceptable and he was mailed his acceptability certificate (DD Form 62) on August 12, 1968.

On July 22, 1968, WILLIAM G. SMITH of the Los Angeles law firm of Margolis and Mc Ternan, 3175 West 6th Street, sent to Lieutenant Colonel GEORGE SGALITZER, Medical Officer, Armed Forces Recruiting Unit, Fort Monroe, Virginia, medical reports concerning subject's physical and psychiatric condition. SMITH requested that Colonel SGALITZER determine whether subject is acceptable for induction. In the letter SMITH stated, "Mr. SUNDSTROM is residing in Alameda, New Mexico, and should you determine that a re-examination is warranted he would appreciate you having him recalled to the Albuquerque, New Mexico, Induction Center."

By letter received by subject's Local Board on July 18, 1968, he told his Local Board he was residing for an indefinite period at the following address:

ROBERT B. SUNDSTROM
c/o JEFFREY SMEDBERG
9621 4th Street, N. W.
Alameda, New Mexico 87114

This letter continues with the following:

"I wish to continue receiving my Selective Service mail at my parents home in Fillmore, California. My permanent address will remain at 641 Elkins Lane, Fillmore, California, 93105."

By letter dated July 22, 1968, SMITH wrote to SUNDSTROM's Local Board and stated that the latter wanted an interview with the medical advisor attached to that Local Board. SMITH told the Local Board that this interview was required by law.

By letter dated August 13, 1968, Colonel SGALITZER advised SMITH that additional evaluation of subject's physical condition would be required, but that subject would have to make a request for transfer through his Local Board.

By letter received by SUNDSTROM's Local Board on August 26, 1968, he requested that his records be transferred to Albuquerque, New Mexico. He gave the same address in Alameda, New Mexico, as he had previously given.

On December 30, 1968, SUNDSTROM appeared at Local Board Number 1, Albuquerque, New Mexico, and executed a Transfer For Armed Forces Physical Examination or Induction, indicating that his address was c/o SUZANNE NOONAN, 131 Harvard, S. E., Apartment 3, Albuquerque, New Mexico. He gave as his reason, "living in this Local Board area." SUNDSTROM was then sent an order at the Harvard Street address on February 6, 1969, to report for induction at Albuquerque, New Mexico, on February 13, 1969.

C. INTERVIEWS WITH DEREK SHANNON, LEADER OF NEW MEXICO RESISTANCE AND BAINBRIDGE BUNTING, 5021 GUALALUPE TRAIL, N.W., ALBUQUERQUE.

FEDERAL BUREAU OF INVESTIGATION

Date 6/17/69

DEREK SHANNON was shown a form entitled "Voluntary Appearance - Advice of Rights" and also a form entitled "Interrogation - Advice of Rights." He advised he knew what his rights were concerning furnishing information which might incriminate himself and he was also aware of the fact that he came to the FBI Office voluntarily and was free to leave at any time he so desired. He stated that he had only a few minutes to talk with Agents at this time since he had a class at the University of New Mexico beginning in 30 minutes.

He advised that he is currently the head of the New Mexico Resistance which is an anti-draft organization in Albuquerque. He advised he could best be reached through his mother, Mrs. ROBERT M. ELLIS, Bryn Mawr N.E., Albuquerque.

SHANNON stated he has received instructions in draft counseling from WILLIAM SMITH, an attorney who is located in Los Angeles, California, and who, in fact, gave him this instruction during the summer of 1968 when he, SMITH, visited Albuquerque. He stated that in effect draft counseling meant that he would advise those eligible for military service how best they may avoid serving through loopholes in physical examination requirements or through other available means. He stated that he could provide information about areas where more lenient examinations might be given and, in fact, might even advise concerning emigrating to other countries. He also knew an attorney by the name of MICHAEL GREENE, also of Los Angeles, and had heard of the law firm of Margulis, McTernan and Smith, all of whom are specialists in legal counseling in Selective Service type matters.

SHANNON advised that during the school year from about October, 1968 until about June 1, 1969, he stayed at the home of BAINBRIDGE BUNTING, a Professor of Arts at the University of New Mexico. He advised that BUNTING's home is located at 5021 Guadalupe Trail N.W., Albuquerque. BUNTING was away from Albuquerque during this period, however, BUNTING's family stayed at the house. from various individuals in the Los Angeles area, advising him they would come to Albuquerque and contact him, which they subsequently did. On other occasions, persons would contact him directly upon arriving at Albuquerque. He stated he had at least a dozen such young men from the Los Angeles area coming to Albuquerque. He would find places for them to stay and many of them were provided housing in BUNTING's home. Others he placed with other friends whom he declined to name. He stated that these individuals came to Albuquerque, to his knowledge, primarily to take their induction or pre-induction physical and/or psychiatric examination for the Armed Services. He claimed it was his understanding that the medical examiners for the various draft boards in Los Angeles were not affording proper examinations and were even qualifying blind men on occasions. He stated apparently word got out that Albuquerque examiners were more strict in their compliance with having an individual meet the standards and he believed that these individuals who came from Los Angeles were, in fact, mentally incompetent for military service. He stated that he learned that all of them were examined by Dr. ROSS in Albuquerque, and, as far as he knows, all of them were disqualified. He stated at least he heard of none who were qualified for military service.

He stated it was his understanding that their primary purpose in coming to Albuquerque, New Mexico, was to be afforded the physical and the mental examinations. He advised that he thought some of these people stayed in Albuquerque for as long as two weeks while others were here an even shorter period of time.

He advised he knew of no payoffs by the examinee to anyone in the Albuquerque area for them to be disqualified for the draft. He stated that he himself had taken a mental examination and was given a 1-Y classification. He was examined by Dr. ROSS and he described Dr. ROSS as a "neurotic." He said that he, SHANNON, answered all the questions wrong on the mental test for the draft board and was then sent to see Dr. ROSS. It was noted that he claimed he was enrolled in the University of New Mexico and had achieved 80 hours credit as of this time.

He stated that he has become disenchanted with the type of individuals who appeared in Albuquerque to undergo these additional physical examinations. He stated that they do not really further the draft resistance movement and simply obtain a deferment and do nothing additional to further the cause. It was his feeling that if they resisted completely and faced jail sentences, this would focus more attention on the anti-draft movement. He advised that his own draft situation is such that he must face re-classification at the end of this week. He pointed out that he would not seek student deferment because that was not the purpose for which the Resistance was set up. He explained that the Resistance was an organization to resist being drafted and not to attempt to obtain deferment. He also pointed out that most of the people who appeared in this area to avoid the draft were of middle or higher income families and he felt that they were only creating additional places in the military for the minority groups, such as, the Mexicans, Puerto Ricans and Negroes.

He stated that he knew one ROBERT SUNDSTROM having stayed at 5021 Guadalupe Trail N.W., but he knew that [redacted] [redacted] stayed at another residence of a friend in Albuquerque whom he would not name. He also stated that he was acquainted with the names of [redacted] and [redacted] He would furnish no further details on his acquaintance with these individuals.

Mr. BAINBRIDGE BUNTING, 5021 Guadalupe Trail NW, advised he is a professor of arts at the University of New Mexico. He stated he was away from Albuquerque during the school year September, 1968, until June, 1969. He is acquainted with one DEREK SHANNON, whom he knows at the University and also knows to be a leader or organizer of some type with the New Mexico Resistance, which BUNTING described as some anti-draft organization. He stated that while he was away from Albuquerque during the school year 1968-69, he left his family in Albuquerque and SHANNON resided at BUNTING's home. He described his home as a large, rambling adobe ranch-type house with a large number of rooms and also with a ballroom on the premises. He stated his home can accommodate numerous people. He prefaced his remarks with the fact that he, BUNTING, was a conscientious objector during World War II and had served in a non-combatant capacity and worked in a mental hospital for 3 1/2 years rather than joining the Armed Services. He stated he was sympathetic to any conscientious objector and would assist a conscientious objector in staying out of the military service. He related he did not know ROBERT BRUCE SUNDSTROM or [redacted] by name but he was aware of the fact that SHANNON, through his connection with the New Mexico Resistance, had offered homes or a place to stay to numerous young men who came to Albuquerque from Los Angeles, California. He stated it was his understanding through discussion with SHANNON that many of these young men were getting a "bad deal" in Los Angeles in connection with their pre-induction physicals and were not being afforded psychiatric examinations. He related it was his understanding that SHANNON arranged for these men to come to Albuquerque and gave them a place to stay, sometimes being at the residence of BUNTING, 5021 Guadalupe Trail NW, while they took their pre-induction physical, including a psychiatric examination in Albuquerque. He advised that many of these young men stayed in Albuquerque from one to four days and would then leave after their examinations.

He stated he has heard of Dr. ROSS in Albuquerque who was affording psychiatric examinations for inductees into the Armed Services and it was his understanding that Dr. ROSS had an excellent reputation. BUNTING advised that he arrived back in Albuquerque in the early part of June, 1969, and at

that time advised SHANNON that he did not feel there should be any large numbers of young men staying at his house any longer. He stated he told SHANNON this was not in opposition with what SHANNON was doing but merely because he felt that sooner or later someone would contact him, BUNTING, regarding this activity. BUNTING stated that SHANNON moved from his house approximately ten days ago, this being right around June 1, 1969. He advised he knew that SHANNON could be reached through SHANNON's mother, Mrs. ROBERT E. ELLIS who resides on Bryn Mawr Street, Albuquerque, and whose phone number is 256-9498.
